We had the incredible opportunity to work with Spin Kick Pictures on a dance documentary project at my studio, and I couldn't be more pleased with the outcome! The team was professional, creative, and deeply passionate about capturing the essence of dance. The final product not only highlighted the talent and dedication of our dancers but also beautifully showcased the vibrant atmosphere of our studio. Brian's attention to detail and artistic vision brought our story to life in a way that exceeded all expectations. This documentary is not just a film; it's a keepsake, something our dancers will cherish. Highly recommend!

THE WORKSHOP

This intensive is built around what he personally learned from working alongside the King of Pop himself — and there is truly no other experience like it.

What made Michael Jackson unlike anyone before or after him wasn't just his dancing. It was the way he combined choreography, acting, and film into one singular vision. That is exactly what this intensive teaches.
