EDUCATION

B.S. Computational Media | Georgia Institute of Technology

August 2016 – December 2020

EXPERIENCE

Product Designer | LexisNexis

September 2025 – Current

Human API

- Designed and launched an Android healthcare app enabling users to sync on-device health data.
- Spearheaded research efforts to inform and drive a comprehensive UX overhaul for our Connect platform, which allows users to securely share medical records with life insurance carriers to accelerate the underwriting process.

UX Designer II | CoStar Group

December 2021 – September 2025

Apartments.com

- Simplified business process by revamping the listing flow for property management companies and landlords. This increased conversion rate by 45% and decreased frustration events by 27%.
- Led collaboration with product, software engineering and customer service teams to address design concerns and ensure the quality of user experiences for Web Enterprise, Customer Portal, and Network Admin by conducting user interviews and producing mockups and prototypes.
- Conducted moderated usability tests to determine pain points to produce UX solutions.

Homes.com

- Utilized atomic design methodology to establish Mantel, Homes.com's design system, by building out components and their variants in Figma.
- Led design efforts for several collaboration tools, including Messaging and Notes, by working alongside key stakeholders such as product managers, developers, and executives to help streamline the overall customer's home buying experience.
- Revamped Homes.com to ultimately increase the number of unique visitors to 100 million (1,290% YoY) since the Homes.com launch in November 2022.

Junior UI/UX Designer | Aprio

March 2021 – December 2021

- Designed branding material, sitemaps, wireframes, and visual designs for a multitude of clients in various industries.
- Regularly updated clients on project milestones, timelines, and deliverables, while also seeking and incorporating feedback given by clients to ensure that future deliverables aligned with their expectations.

VOLUNTEERING

UX Designer and Wordpress Developer | 48in48

- Participated in the 2023 48in48 global event, and created a website for the Coweta County African American Heritage Museum.

SKILLS

Technical
