

The Sphere 500 Climate Fund

Institutional Share Class

Highlights

- Invests in the top 500 companies in the US by market capitalization, minus fossil fuel companies, major contributors to deforestation, and other screens
- Votes shares for climate action and long-term growth in value using As You Sow proxy service from non-profit As You Sow
- 99% correlation to the S&P 500

Fund Description

SPFFX is designed to replicate the The Sphere 500 Fossil Free Index. The Index is a rules-based U.S. Large Cap Core equity index. It is comprised of the 500 largest listed equities on U.S. exchanges by market capitalization, excluding fossil fuel, deforestation, private prison, weapons, and tobacco companies on an exclusionary list created by independent non-profit As You Sow. The remaining securities are re-weighted based on the adjusted market capitalization of surviving constituents and rebalanced quarterly. Shares are voted to encourage climate action, which grows the long-term value of companies by helping to protect against climate risks and setting them up for success in a changing world.

Why our screens

Our investment thesis is rooted in the belief that by avoiding or reducing exposure to certain historically volatile sectors and those sectors that are volatile or potentially exposed to regulatory over-hang, we seek to deliver market-like returns in the near-term while potentially improving long-term risk and return characteristics.

Fossil fuels	Deforestation	Military weapons	Tobacco	Civilian firearms	Private prisons
--------------	---------------	------------------	---------	-------------------	-----------------

Annual Performance	2022*	2023*	2024*	2025*

Correlation in investing is a statistic measuring how two securities move in relation to each other, ranging from -1.0 to +1.0. It helps investors manage risk by diversifying portfolios with assets that do not move in lockstep. A +1.0 indicates perfect positive correlation (move together), -1.0 indicates perfect negative correlation (opposite directions), and 0 indicates no relationship.

*Extended performance, as SPFEX did not exist until 9/2026. SPFEX extended performance is based on the performance of SPFFX.

Past performance does not guarantee future results. The performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. For the most recent month-end performance, please call 844-2-SPHERE (844-277-4373) or visit the Fund's website at <https://www.oursphere.org/fund>.

The Fund's investment adviser has contractually agreed to waive and/or reimburse certain fees and expenses of the Fund so that the total annual operating expenses of the Fund are limited to 0.07% for Class R6 shares, respectively, as a percentage of average net assets until December 31, 2030 and may not be terminated during its term without the consent of the Board of Trustees.

Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Index returns do not reflect the effects of fees or expenses. It is not possible to invest directly in an index. Fund Manager Bio

Jason Britton has 20 years of investment experience. He is the President and Chief Investment Officer of Reflection Asset Management and lead portfolio manager for SPFFX. He previously served as Managing Director and Head of Impact Investing at Bank of America Merrill Lynch, and Head of the Community Investing at Barclays Wealth. He holds an MBA from Yale University and is a professor of Impact Investing at the College of Charleston School of Business.

Market Recap

The Sphere 500 Climate Fund underperformed the S&P 500 by 204 bps in the First Quarter of 2026. This underperformance was attributable to the positive performance of the Energy Sector (made up entirely of fossil fuel companies, up 1.05% for the quarter - where Sphere has no exposure). Correlation to the S&P 500 continues to be 99%. The U.S. economy continued to deliver mixed data as the employment market continued to show signs of weakness, but US corporate earnings were mixed with some surprises to the upside. The Federal Reserve maintained the Fed Funds Rate and stance on US monetary policy, but the driving factor of oil price spikes due to the continued conflict in Iran has the Market reacting to daily news. We remain confident in the structural soundness of the economy in the United States and encourage investors to continue to consider well diversified portfolios like the Sphere 500 and how they have performed over multiple market cycles.

Votes for the planet

The Fund pools investor voices to vote in favor of climate-related shareholder proposals at the companies it invests in. This pushes some of the biggest companies in the economy to do better on climate, which grows the long-term value of companies by protecting against climate risks and setting them up for success in a changing world.

Before investing in the Sphere 500 Climate Fund ("SPFFX"), consider the fund's investment objectives, risks, charges and expenses. As with all investments, there are risks involved with investing in SPFFX. Risks include, but are not limited to, sustainability considerations, general market or market event, and common stock risks. To obtain a prospectus or summary prospectus which contains this and other information, please visit <https://oursphere.org/fund> or talk to your financial advisor. Read it carefully before investing.

The Sphere 500 Climate Fund tracks The Sphere 500 Fossil-Free Index. The Index is constructed beginning with the largest 500 U.S. companies that trade on regulated U.S. exchanges by market capitalization. The index administrator, BITA GmbH, then eliminates companies from this investable universe using data obtained from As You Sow, an unaffiliated non-profit organization that promotes environmental responsibility through shareholder advocacy. As You Sow eliminates companies from the Index based primarily on their risk profile of being exposed to the fossil fuel industry and secondarily, by other exclusionary screens, including companies engaged in deforestation activities, civilian and military firearms manufacturing and related guns/arms sales, prison and border security operations, and tobacco and e-cigarette manufacturing. The elimination of these companies from the Index is intended to foster and support the climate-focused, social investing goals of the Fund. The fund may invest in companies that use fossil fuels as a part of their business or have used fossil fuels in the past. The performance data quoted represents past performance and is no guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Index returns do not reflect the effects of fees or expenses. It is not possible to invest directly in an index. Current performance may be lower or higher than the performance data quoted. For the most recent month-end performance, please call 844-2-SPHERE or visit the fund's website at <https://www.oursphere.org/fund>.

Index performance is discussed for illustrative purposes only as a benchmark for each strategy's performance and does not predict or depict performance of that strategy. While index comparisons may be useful to provide a benchmark for a strategy's performance, it must be noted that investments are not limited to the investments comprising the indices. Each of the strategy benchmark indices are unmanaged and cannot be purchased directly by investors. Past performance does not guarantee future results. No portion of the content should be considered a solicitation to buy or an offer to sell shares of the fund in any jurisdiction where the solicitation or offer would be deemed unlawful under the securities laws of such jurisdiction. The Sphere 500 Climate Fund is distributed by Ultimus Fund Distributors, LLC, member of FINRA and SIPC, which is not affiliated with Sphere or SPFFX. NOT FDIC INSURED NOT BANK GUARANTEED. MAY LOSE VALUE.
