

NONPROFIT & GOVERNMENTAL

OUR MISSION IS TO HELP YOU ACCOMPLISH YOUR MISSION

As a non-profit organization, you provide care and valuable resources to the community. We want to do everything we can to help you continue offering your essential services.

LEAN ON US

HHM can help your team navigate the complicated issues of revenue/donor restrictions, expense allocations, and compliance with continually changing government regulations.

FINDING THE FUNDING

In a time of increased competition for funding and donations, HHM will help you develop sound financial strategies so you can obtain the most value for each dollar donated to your nonprofit. Every tax dollar we are able to save for you translates directly into progress toward your goal and service for the people you reach.

Our team has worked with nonprofit and governmental agencies, churches, independent private schools, electric cooperatives, credit unions, and other entities that are organized with missions other than for-profit. We would love to help you achieve your financial goals. Contact us to get started.
