

**He Waka Eke Noa; Co creating
primary care that works for
Māori**

**Whakauae Research
HARC and Rangahau Whānau**

**Te Taupuhipuhi Hui
11th June 2025
Lyall Bay Pōneke**

Who are we ?

Whānau

Whakauae Research Services

HARC (Gonville Health)

Why did we do this research and what do we hope for now ?

To produce evidence for whānau and Gonville Health to encourage earlier cancer diagnosis for Māori

To devise options for extending reach and impact of the research to other PHC sites

When – part of HRC programme grant started in 2022 finishes 2026

Explored the intersect between Kaupapa
Māori Research and Appreciative Inquiry

Changed how we practiced

Had to learn a whole new way of
thinking

**How did we go about doing the
research?**

We have a model of change we are implementing

The evidence is not new and has been produced by many others over the last thirty years

How do we get uptake, change, and implementation of research findings

Where are we currently ?
