ABOUT ME

I always admire how design has the power to shape the world around us. I love to work on projects that make people happy. I am a proactive and detail-oriented UX/UI Designer with proven end-to-end experience delivering enjoyable web and mobile products for clients. Clear understanding of technologies allows seamless collaboration with developers, while strong communication skills ensure transparency with stakeholders. I've spent the last few months learning interaction design with prototyping, photography, web development with webflow, and video creation on YouTube.

WORK EXPERIENCE

UX/UI Designer

National Malaria Control Programme [07/08/2018 – Current]

City: Accra

Country: Ghana

- Presented UX design concepts to the project stakeholders and team for review and feedback.
- Driving the development and communication of clear design guidelines, patterns, libraries and assets.
- Designed the UIs for the LLINs school distribution mobile and web application.
- Designed the UIs for LSM (Larvae source management) mobile and web applications. A collaboration between Zoomlion Ghana (A waste management organization) and the Ghana Health Service.
- Re-designed NetApp (point mass distribution application) UI to adapt well on android devices and better serve the needs of end-users.
- Re-designed SiCapp (Seasonal Chemotherapy application) User interface (UI).
- Provided IT support and training of regional health directors, district health directors, regional health information officers, district health information officers, IT managers, and volunteers across the 16 regional health directorates.

UX/UI Designer

Neglected Tropical Disease Programme [07/02/2018 – 10/07/2018]

City: Accra

Country: Ghana

- Prepared and presented lo-fi mockups for the Lymph application to internal teams and key stakeholders.
- Creating wireframes, site maps, flow diagrams, and hi-fi interactive prototypes for the Lymph mobile application.
- Conducted testing to assess user impact of specific UI elements.
- Contributed to the end-user documentation for the final product.
- Recommended alternative design solutions based on technical limitations. Ability for quick problem-solving earned positive feedback from team and stakeholders

National Service Personnel

Ga West Municipal Assembly & Greater Accra Regional Health Directorate [12/09/2017 – 06/08/2018]

City: Greater Accra

- Member of a team that helped reinstall and setup the GA West Municipal Training library
