

Admission Guide at Dr. Soliman Fakeeh Hospital

Any patient for admission can communicate directly with the admission office reception in the same building. Registration is available 24/7. The patient must complete the necessary documents for entry, and the staff will be at their service and assist them with any inquiries they need. In the event of an emergency or unplanned admission, it is also possible to go to the admission office directly, which is open 24 hours a day, and assistance will be provided by our staff any day and any time.

Medicines and medical documents

You should bring your usual medications if you are using any of them while on admission. Please be sure to bring medicines in their original packaging along with any available supporting documents from the following:

Relevant
medical reports

The date of
the surgery

Laboratory
test results

Radiology
reports

Documents at the time of registration

To make the process of pre-admission registration easy, please allow the registration personnel to complete the check-in process. You are requested to bring the following documents

ID/Iqama

Insurance
(if you are insured)

Any if approvals if requested
(for planned admission)
