

ZeroMark[®]

STAIN RESISTANCE

PRODUCT CHARACTERISTICS

ZeroMark[®] Stain Resistance from Happy Feet is a revolutionary innovation that makes easy work of the toughest marks and stains.

Unlike traditional stain resistance coatings that use basic two-part urethane compounds, ZeroMark[®] combines urethane, ceramic nanoparticles, and an additional proprietary synthetic compound that gives you unprecedented protection against almost any type of scuff, mark, or stain: even dried-on permanent marker wipes off easily!

Not only does ZeroMark[®] stand up to everyday mishaps in high-traffic areas like living rooms and waiting rooms, it's also the perfect additional layer of protection for demanding environments like playrooms and workshops where nasty stains and marks are inevitable.

KEY ADVANTAGES

- Proprietary coating compound that makes easy work of the toughest marks and stains.
- Even permanent marker wipes off easily!
- Perfect for demanding, high-traffic residential and commercial environments.

ADDITIONAL ADVANTAGES

- Antimicrobial
- Anti-slip (R10)
- Improved anti-scratch protection
