

Era

Walls, Workstations, & Dividers

A New Era In Workplace Furniture

Proudly sourced and manufactured in the USA, Era is a panel-based system built with sleek steel and aluminum frames that elevate workplace aesthetics while providing long-term durability. Designed with simplicity in mind, Era is easy to specify and install—laying the foundation for adaptable, high-performing environments.

Era workstations with collaboration table and Era wall private offices

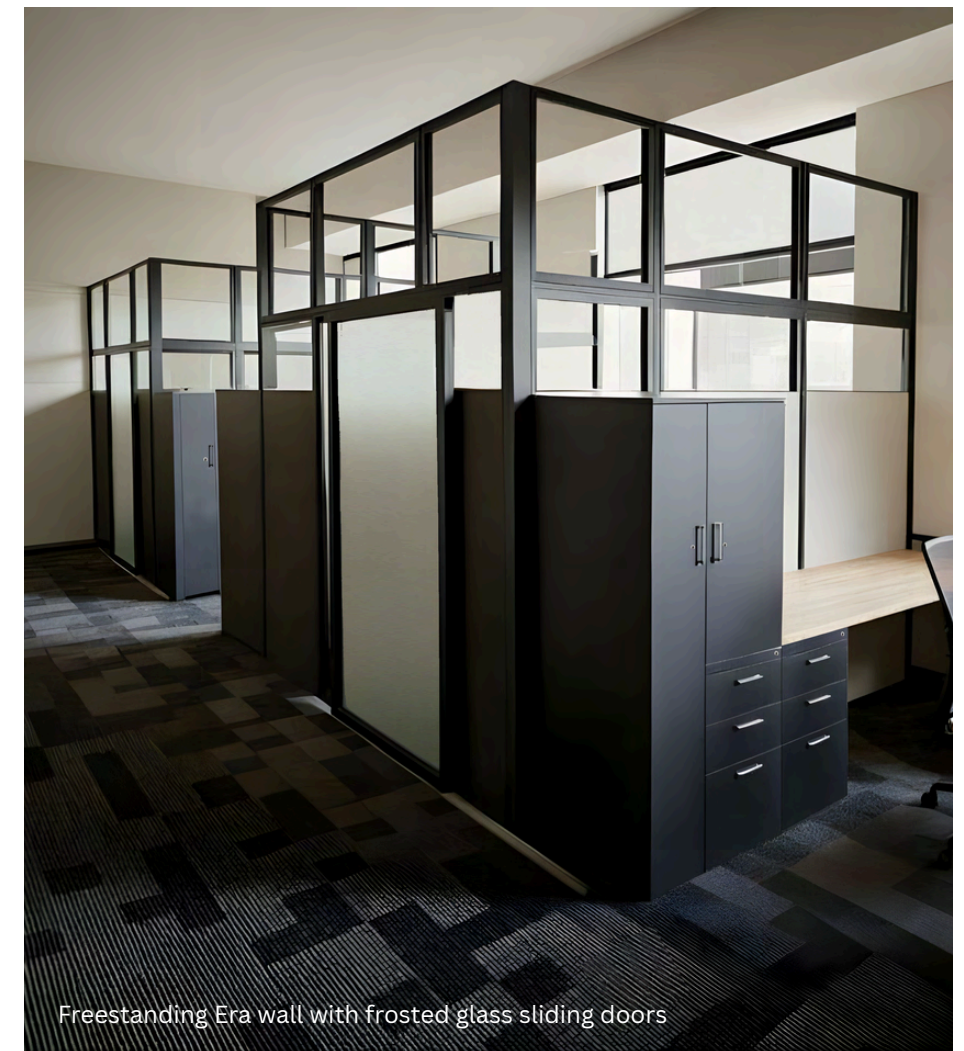

Segmented panels, grey frameless glass, & storage tower with bookcase

Tailored to Your Needs

The system offers flexible configurations with panel options that include integrated raceways for seamless routing electrical and data, or non-raceway designs that highlight the slim profiles. Segmented skin options—including fabric, laminate, glass, markerboard, or metal—allow for thoughtful personalization. Beyond standard sizes, panel heights and widths can be customized to accommodate a wide range of layouts and applications.

Freestanding Era wall with frosted glass sliding doors

Endless Possibilities

More than a panel system—Era seamlessly integrates with other gen2 products. Use panels as freestanding or mobile dividers for dynamic space division, or incorporate them into the innovative Wall system. With countless design combinations, Era adapts to every workspace need.

U-Shaped desk , meeting table, & Era mobile whiteboard

Era reception station with transaction top featuring non-raceway panels

Idea Starters

Configuration #1:
L-Shaped workstation with fabric skins
