

EDUCATIONAL OVERVIEW

A New Era in Workplace Furniture

An introduction to the gen2 Era panel system - A modern,
American-made workstation solution.

2026

● WHAT IS ERA

Meet Era

Era is a modern panel-based workstation system from Gen2, proudly sourced and manufactured in the USA. Minimal steel and aluminum frames create a clean, refined aesthetic with lasting durability, forming a foundation for adaptable solutions in any workplace.

American-made Sourced & built in the USA

Steel & aluminum Sleek, durable frames

Reconfigurable Adapts as needs evolve

What Defines Era

1

Fully Assembled

Panels arrive fully assembled including segmented panels, cutting installation time and packaging waste by up to 50%.

2

Segmented Tiles

Customize each panel with segmented tiles options including fabric, glass, laminate, glass markerboard, and metal tiles

3

Refined Aesthetic

Minimal steel trim delivers a clean, modern look. Available with or without a raceway for power & data , updated storage hardware, offering flexibility for a variety of workspace designs.

4

Highly Reconfigurable

Adapts easily to new layouts, making it ideal for long-term, evolving use.

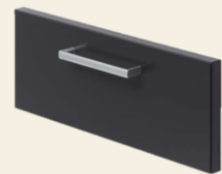

● CUSTOMIZATION

Tailored to Your Needs

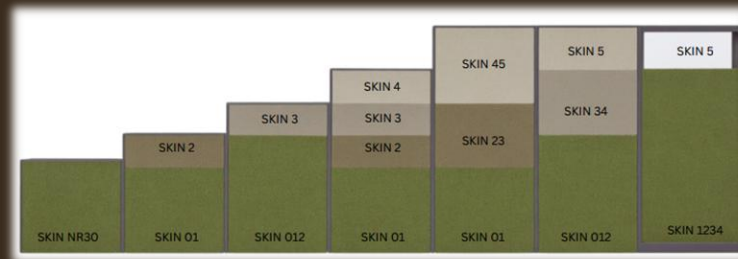

Era flexes to fit your space, your layout, and your look.

- **Segmented tiles** — Fabric, laminate, glass, markerboard, and metal in one panel.
- **Integrated raceways** — Route power and data cleanly — or go raceway-free for a slim profile.
- **Custom dimensions** — Panel heights and widths beyond standard sizes for any layout. By request and subject to review.
- **Storage Hardware** — Integrated pulls or bar pulls available
- **Stackers & Clearstory** — Frameless glass, framed stackers, or clerestory panels up to 120" high for enhanced privacy and sound reduction.
- **Doors** — Swing and sliding door options available
- **Support** — Fixed height or adjustable height supports

Pedestals · Overheads · Lateral Files · Lockers ·
Combo Storage · Storage Cabinets · Wardrobes

● FLEXIBILITY

Endless Possibilities

More than a panel system, Era integrates seamlessly with the rest of the gen2 family.

● **Freestanding dividers** Define space without permanent walls.

● **Mobile partitions** Reshape a room on demand.

● **Wall system integration** Build private offices and architectural zones by adding clearstory to panels (up to 120" H).

● **Reception** One product. Endless possibilities. Designed for reception, desking, collaboration, or any workplace solution.

Designed for How We Work in 2026

Today's workplaces favor adaptability, well-being, and longevity. Era is built to meet each shift.

Modular & flexible

Reconfigurable panels keep pace with changing teams, layouts and office growth or reductions in staffing.

Human-centered

Adjustable ergonomic supports and open sightlines to enhance comfort, collaboration, and concentration.

Sustainable

Fully assembled shipping cuts packaging waste; durable frames last.

American Made

shorter lead times, dependable delivery, and fewer supply chain disruptions. Avoid the uncertainty of tariffs and imports while supporting American jobs and locals.

ER#6

Smarter to Ship, Built to Last

50%

Less packaging & install waste

Panels ship fully assembled, not flat-packed.

100%

American-made

Sourced and manufactured in Cleveland, Ohio.

Years

Of reconfigurable life

Reuse and re-layout instead of replacing.

Why Buyers Choose Era

1

Simple

Easy to specify and install, with panels that arrive assembled and ready to place.

2

Affordable

Value-driven, factory-direct furniture without compromising on quality.

3

Flexible

One system that adapts across workstations, walls, dividers, and storage.
