

HEALTHIERHERE SOCIAL EQUITY INVESTMENT: COLLECTIVE ABUNDANCE GRANT

Overview and Application

Introduction

HealthierHere is a nonprofit collaborative dedicated to reducing health disparities, advancing equity, and improving the well-being of all people in King County through innovative, cross-sector collaborations. We partner with community members and leaders from diverse sectors, including health providers, social service and behavioral health agencies, community organizations, Tribes, government agencies, consumers, and more. HealthierHere works to connect and strengthen health and social care systems by providing organizations with expertise, resources, and robust data and technology solutions. We don't provide direct health care or social services to clients. Instead, we engage and support the organizations that do.

HealthierHere is one of nine Accountable Communities of Health (ACH) in Washington State working to transform the health and social care delivery systems, improve population health, prevent disease and address health related social needs.

As an organization, HealthierHere operates under a set of core values that include equity, community, partnership, innovation, and results. These values guide our work with each other and with our community partners. HealthierHere leads with equity. We work to intentionally eliminate disparities and address the current power dynamic and structural racism in our health and social care systems that perpetuates inequities.

We believe that every community member in King County should receive the type of care that they deserve - with respect and without stigma - to address their unique and individual needs. As our name suggests, we are committed to advancing health equity and believe that here, in King County, everyone's health matters. More information about HealthierHere can be found at: <https://www.healthierhere.org>.

Background

The HealthierHere Governing Board established the Social Equity and Wellness Fund to provide opportunities for funds to be used to address social determinants of health, and to transform the health and social care delivery system by supporting non-traditional community-based partners. This funding is being provided in light of multiple factors including funding reductions and assistance eligibility changes which are simultaneously decreasing capacity for community organizations and increasing demand for assistance in King County and nationwide.

Objectives and Scope of Work

HealthierHere intends to utilize \$1.0 million of its Social Equity and Wellness Fund as a one-time investment in King County community-based organizations. The objective is to help support organizations' core work in communities in King County and empower community members to maintain their work and presence in that community.

Timeline

Funds dispensed through the Collective Abundance Grant will be distributed following the timeline identified below:

Application Due Date	Partner Selection	Funds awarded	Length	Funding Window
February 11, 2026	March 23, 2026	April 1, 2026	April 1, 2026 – March 31, 2027	Twelve-month funding period (April 2026 – March 2027)

Amount per organization
