# Exterior Cleaning

## Alkaline

PRODUCT	DESCRIPTION
Green Xtra-EC	Heavy-duty liquid cleaner and degreaser, designed to separate oil from hard surfaces for easy waste treatment.
Transit Kleen	Versatile heavy-duty alkaline cleaner used to cut through fats and greases at rendering facilities as well as penetrate and lift road film and exhaust deposits from transportation vehicles. Safe on painted surfaces and as an aluminum brightener.
Restore	Heavy-duty liquid product, built to penetrate difficult soils. Safe on polished and anodized aluminum.
Custom Clean 4000	Heavy-duty liquid formula, formulated to effectively cut through road film and exhaust deposits. Safe on polished and anodized aluminum.
Big Blue Plus	Free-flowing powder. Dissolves fully and remains in solution for heavy duty cleaning applications.

## Acidic

PRODUCT	DESCRIPTION
Al-Brite	Blend of acids and detergents, ideal for brightening aluminum trailers, rub rails, trailer decks, etc. Cleans road fill, oil-based soils, and metallic oxides.
Bright Test HW	Mild, organic acid cleaning formulation, effective in removing road salt, iron oxide, and other inorganic soils.
So Brite Plus	Blend of acids and surfactants that brightens aluminum, removes difficult soils, and rejuvenates oxidized painted surfaces.
Trailer Brite	Blended aluminum brightener. Removes road film, diesel exhaust, petroleum soils, and metallic oxides from painted surfaces, steel, chrome, and various alloys.

## Neutral

PRODUCT	DESCRIPTION
treeo Neutra-Wash	Multipurpose, low-foaming cleaner, ideal for a wide variety of industrial soils and application methods.
Neutra-Lift	Versatile, low-foaming product, designed to clean a variety of soils from most surfaces, including floors, painted and unpainted metal, and glass.
DuBois Quick Lift	Cleaner/degreaser, formulated to enable oils and greases to be effectively removed from surfaces, yet be released in the waste stream for quick, low-cost elimination from the effluent.

# Interior Tank Cleaning

## Solvent

PRODUCT	DESCRIPTION
DuJel Citrus	Ready-to-use, heavy-duty gel cleaner, designed to cling to vertical surfaces to increase contact time. Solventized to remove difficult soils such as tar and adhesives.
DuJel TR	Ready-to-use, solvent gel cleaner, designed to cling to vertical surfaces to increase contact time. Ideal for removing heavy oil, grease, and grime.

## Alkaline

PRODUCT	DESCRIPTION
LC-5439-2X	Heavy-duty, non-foaming cleaner, ideal for removing fats, oils, proteins, and other difficult soils from stainless steel surfaces.
Liquid Hi-Alk 90	Versatile concentrated liquid caustic detergent. Ideal in waters with moderate to high hardness. Can also be added to "light duty" cleaners as a complete booster.
Quel CIP HD	Concentrated liquid caustic detergent, formulated for spray, soak, and circulation cleaning. Excellent for use with moderate to high hardness water.

## Acidic

PRODUCT	DESCRIPTION
Quel Acid CIP	Low foam, blended acid cleaner and descaler, designed to remove carbonate hardness scales from surfaces.
