

## Industry Overview

The glass industry is incredibly versatile, ranging from raw material handling to carrying finished products like glass bottles or large glass panes. Various glass applications can require equipment that withstands harsh environments, high temperatures, abrasion, efficiency, and delicate handling.

## BRECOflex Benefits

**Excellent durability & resistance:** Polyurethane belt material with steel or Kevlar® reinforcement provides highly accurate motion, environmental resistance, and high load handling

**Large product line & custom options:** A huge selection of products to meet the needs of all production stages across the industry

**Reduced downtime:** High-quality products and in-house manufacturing and customizations minimize downtime through long-lasting performance and quick lead times

## Product Highlights

### move-series®

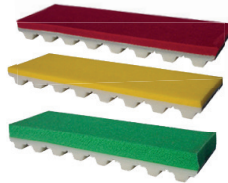

**move-series® & BRECOprotect®** for heavy load transportation or wash-down applications

**ATN® belts** with modular profile attachments and inserts for design flexibility

**Custom belt materials,** tension members, and other modifications to meet environmental and load requirements

### Backings & Profiles

**Temperature & Chemical-resistant** options such as TT60 and Viton

**Soft materials** like Sylomer, PU Yellow, and Linatex® to transport fragile glass products

**2,000+ stock profile molds** for precise positioning, indexing and sorting of finished glass

## Common Industry Applications and Potential Solutions

Applications	Priorities	Belt Options	Backing Options	Modifications & Accessories
General/fragile product transport and sorting	<ul style="list-style-type: none"> <li>Moderate high friction</li> <li>Delicate transport</li> <li>Accuracy</li> <li>Precision</li> </ul>	<ul style="list-style-type: none"> <li>ATN® timing belts</li> <li>Covered timing belts</li> <li>Custom timing belts</li> </ul>	<ul style="list-style-type: none"> <li>Linatex®</li> <li>Sylomer foam</li> <li>PU Yellow</li> </ul>	<ul style="list-style-type: none"> <li>Welded profiles</li> <li>ATN® modular profiles</li> </ul>
Heavy-duty glass processing & polishing, grinding, cutting machines	<ul style="list-style-type: none"> <li>High load tolerance</li> <li>Abrasion resistance</li> </ul>	<ul style="list-style-type: none"> <li>move-series®</li> <li>Covered timing belts</li> <li>Custom timing belts</li> </ul>	<ul style="list-style-type: none"> <li>T-Cover</li> <li>Linatrilite</li> <li>Viton</li> </ul>	<ul style="list-style-type: none"> <li>Standard and custom pulleys</li> <li>Standard and custom clamps</li> </ul>
Harsh-environment glass processing & finishing	<ul style="list-style-type: none"> <li>Environmental resistance</li> <li>High-temperature</li> <li>Wash-down</li> </ul>	<ul style="list-style-type: none"> <li>BRECOprotect®</li> <li>Custom timing belts</li> <li>Covered timing belts</li> </ul>	<ul style="list-style-type: none"> <li>Linatrilite</li> <li>EPDM endless</li> <li>Chromeleder</li> </ul>	<ul style="list-style-type: none"> <li>TPU-ST2 polyurethane</li> <li>Kevlar® and stainless steel tension members</li> </ul>
