Advertising Rules

Ads must not use any sort of styles that could be misinterpreted as a functional part of a webpage or app (e.g. 'download' 'start now' button appearance and similar).

To comply with Etisalat's policy on advertising, all adverts for services must:

1. clearly identify the service they are advertising by name;

2. be relevant to the service content; and

3. include a statement of the cost of the service to the end user and free period

4. be designed to ensure the advert is clearly distinct from placement locations, for example by using a border and unambiguous wording, and not use the word 'download' or associated download imagery; and

5. make all reasonable efforts to exclude the display of Ads in educational or children's apps and websites, unless with Infomedia's consent where the service being advertised is itself primarily educational or aimed at children.

Affiliate marketing networks, where individuals promote services for third-party companies in exchange for commissions, must not be used. All service advertising must be via direct media buying from Google, Social Media services or similar direct owners of inventory.

All other 'Content and Ad Rules' on our compliance framework at https://www.infomedia.co.uk/compliance must also be followed.

Examples of compliant banner ads:

BW Max
Over 200 Bollywood films
Activate your account to start watching videos - Free for 24 hours then AED 3.25/ day
Subscribe

ELVES HIGH GROUND
Fantasy RPG Mobile Adventure, 1 day free then 3AED/day

BetaFIT
3AED/week, 1 day free
Weekly workout plans and videos

infomedia
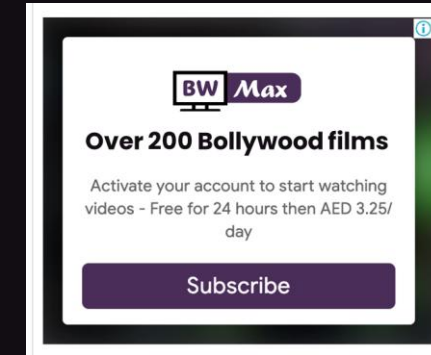

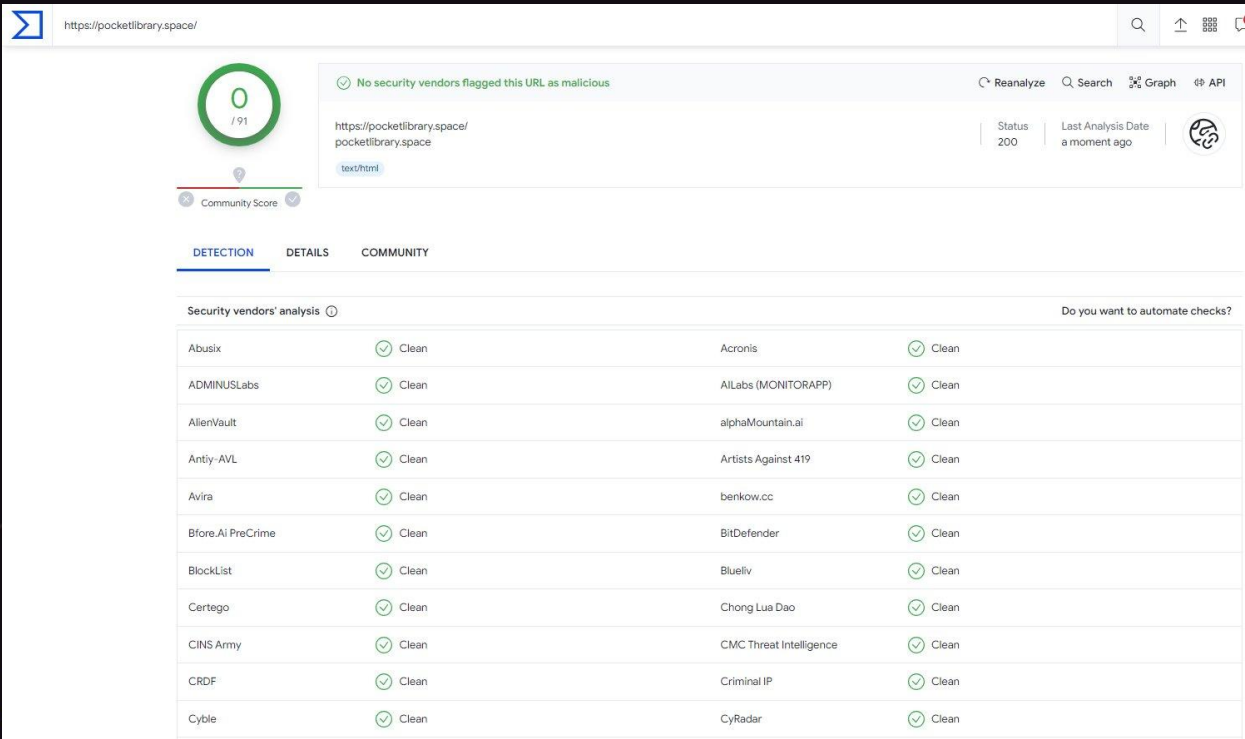

Web Security Checks – e&

All Landing Pages and Service website must pass checks from both Virus Total and Immuniweb

https://www.virustotal.com/gui/home/url

https://www.immuniweb.com/websec/

Pass = 0 risks found

Pass = at least 'A' rated

Additional Notes/Common Issues

Full Terms and conditions must not be drafted as a form of legal contract – must be limited to basic terms of use and references to laws or jurisdiction must be for the UAE.

Privacy Policy may reference other jurisdiction's laws, but must make it clear the applicable law for UAE consumers is UAE data protection law

Service access links must not link the use back to the subscription page – the subscription flow cannot be used as a service login function – a sperate login function/page must be provided. A raw MSISDN must not appear in the service access link url. Best practice is to provide a unique access url or send an auto-created username and password for service access.

Appendix: Prohibited Page/Ad Designs

It is prohibited to design pages and/or adverts that focus on 'download now', 'download is ready' ' 'Start to Continue' or similar designs that may mislead customers into believing the payment experience is related to the functionality of the location of advertising placements, examples of prohibited styles are below

Examples: Prohibited Landing Page Designs
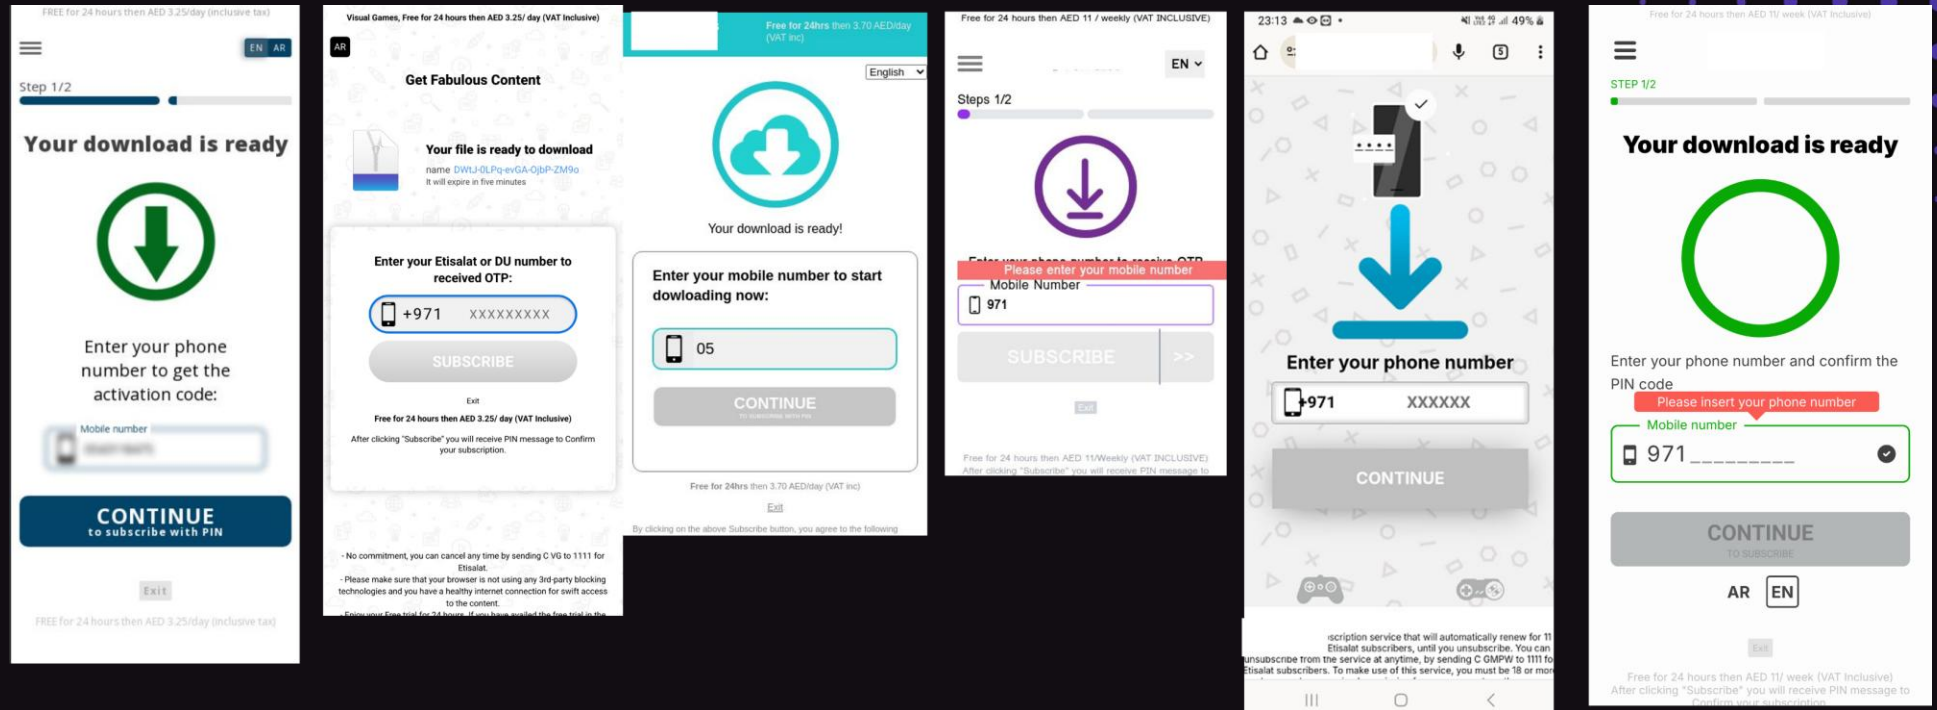

Examples: Prohibited Ad Designs
