National Restaurant Association Show 2023: May 20-23 - Chicago
Booth # 6064

MarketMan, a global leading platform for foodservice inventory management and purchasing, is exhibiting at the National Restaurant Association show in Booth #6064. We are demonstrating new predictive analytics features that help take COGS management to an entirely new level of efficiency and profitability.

MarketMan has revolutionized the restaurant industry with its state-of-the-art software application that integrates with many restaurant point-of-sale systems. Our platform helps restaurant owners and operators streamline their operations, reduce costs, and improve their bottom line. It offers features such as inventory management, purchase orders, recipe costing, food waste tracking, and much more.

MarketMan is committed to helping restaurant owners and operators succeed by providing them with the tools they need to make informed business decisions. Our user-friendly software allows restaurateurs to track their inventory levels in real-time, forecast demand, and automate ordering to reduce waste and control costs.

At the National Restaurant Association show, we are showcasing our latest features and innovations. Our team of experts will be available to provide live demos and answer any questions you may have about our software.

We would love to speak with you about MarketMan and how our software can help restaurant owners and operators improve their business operations. Please visit us at Booth #6064 during the National Restaurant Association show to schedule an interview or learn more about our software.

Sincerely,
[Chuck Sarosi](#)
