A relaxation massage is designed to promote deep physical and mental relaxation. After the massage, we recommend a calm regime without greater physical activity and an increased intake of fluids to support recovery.

ANTISTRESS MASSAGE

🕒 60 min	2 100 CZK
🕒 90 min	2 630 CZK

A gentle, deeply relaxing treatment that helps release physical and emotional tension, reduce nervousness, anxiety and exhaustion, and restore overall balance to the body and mind. Rather than using strong pressure, the massage focuses on flowing movements and stimulation of nerve endings. The treatment most commonly focuses on the head, neck, shoulders and face, where stress tends to accumulate the most. According to your preference, it can also be performed as a full body massage.
