Prefer to skip the fax? Bayview Pharmacy accepts electronic prescriptions from all major EHR and e-prescribing platforms on the Surescripts network. Here's how to send your prescription electronically in three quick steps.

How to E-Prescribe

1. Search for our pharmacy

In your EHR or e-prescribing platform, search the pharmacy directory for “Bayview Pharmacy” — or search by ZIP code 02886 and look for us in Warwick, RI.

2. Verify you have the right location

Confirm the listing matches the details in the box below before selecting it.

3. Enter the prescription and send

Enter the compounded medication exactly as it appears on the order form — product, strength, quantity, directions, and refills — then transmit. No fax needed; we take it from there.

Pharmacy Name	Bayview Pharmacy
Address	3844 Post Road, Warwick, RI 02886
NCPDP ID	4106882
NPI	1750455143
Phone	(401) 284-4505
Fax	(401) 284-4506

THE FASTEST WAY — PRESCRIBE WITH BAYVIEW CODES

Every validated formulation has a short **Bayview code** (like **PPR1**) — the same codes printed on the order form and the validated formulations sheet. Instead of typing out every ingredient, put the code first in your compound / free-text entry and we match it to the exact validated formulation instantly:

Bayview PPR1 — Phenylephrine HCl 100 mcg/0.1 ml, 1 x 1 ml single-dose vial

Include the quantity, directions/SIG, and refills as usual. If your EHR only accepts a plain formulation name, type it exactly as it appears in the Rx section of the order form.

Questions? Call (401) 284-4505 and one of our pharmacists will walk you through it.
