

October 15th – Dr Michael Mandikos

Direct from Brisbane!

“Treatment for the missing Maxillary lateral incisor”

Dr Mandikos has his passport ready and has gotten his visa – he is visting all the way from Brisbane to spend the evening with us! Designed for everyday work, in this seminar Dr Mandikos will clear up your confusions on the most commonly missing tooth – the lateral incisor. The lateral incisor is one of those teeth that presents a challenge – easy to replace, difficult to replace well. Overcome your fears and be guided by one of the best in the business.

About Dr Mandikos

BDS (Hons), MS (New York), Cert Pros, FRACDS, FICD, FPFA

Dr. Mandikos is a registered specialist in Prosthodontics.

Michael received his Bachelor of Dental Science Degree with First Class Honours, from the University of Queensland and in 1998 he completed a three-year Residency Program at the State University of New York at Buffalo (USA), graduating with a Certificate in Prosthodontics and Masters Degree in Biomaterials. He has researched composite resin materials and published research papers in Australian and international journals on clinical and dental materials topics, as well as many clinical technique articles in local dental magazines.

Michael has been a Visiting Specialist Prosthodontist to the University of Queensland Dental School and the Royal Australian Air Force. He is a Reviewer for three dental Journals and is a product evaluator for several dental companies. Michael has presented continuing education programs at dental meetings throughout Australia and Southeast Asia, and also in Greece, Antarctica and the USA.

He maintains a Private Practice limited to Implant and Restorative Dentistry in Graceville in Brisbane's Inner West, and teaches at the Australian Dental Centre of Excellence in Brisbane.
