

MENTORING ONLINE WORK EXPERIENCE_

IMPACT_ SUMMER 2023_

After attending the Online Work Experience Week, young people developed a greater understanding of different career options and skills they would need to pursue them. Their feedback expressed greater awareness and confidence in not being restricted to a specific path and taking time to develop their skills and explore new interests. The lower confidence percentages may reflect the freedom to have time to explore different career options.

WHAT YOUNG PEOPLE LEARNT_

"I have felt the reassurance about my indecisiveness in my career and how I can switch paths if I truly want to."

"This week truly helped me to realise that there's more out there that could spike my interest."

"I have learnt to identify my strengths and skills in order to find a career that is suitable for me."

"No matter my upbringing or background, there are still avenues that I'm able to utilise to make my way in the world."

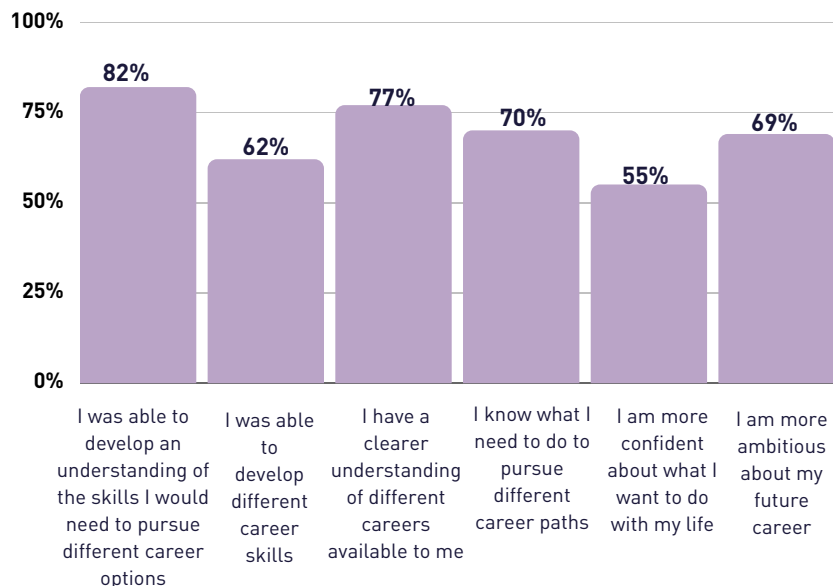

"I was impressed that my passion in social sciences could link up so well with my experience in the education sector, and I'm thrilled to wield it in the future."

"Inspirational, engaging and exceptional"

YOUNG PEOPLE SURVEY RESULTS_

% who agree/strongly agree with the statement

IN ONE SENTENCE_

"An eye-opening experience into worlds of work that I hadn't considered before."

"An extremely informative and well structured programme that has helped me get a clearer idea of what to do with my future."

"An enlightening experience that has further amplified my ambition to study engineering."

AREAS FOR IMPROVEMENT

- More detail and time required for content heavy sectors
- Introduce a wider variety of sectors such as Health and Architecture
- Increase the amount of activities and interactive content related to the sector
- More opportunities to interact with the mentors and ask questions
