TRACKS TO PROSPERITY: THE FUTURE OF TRANSNET'S NON-CORE ASSETS

Volume 2

Anura Partners | 2026

Decision tree for asset classification

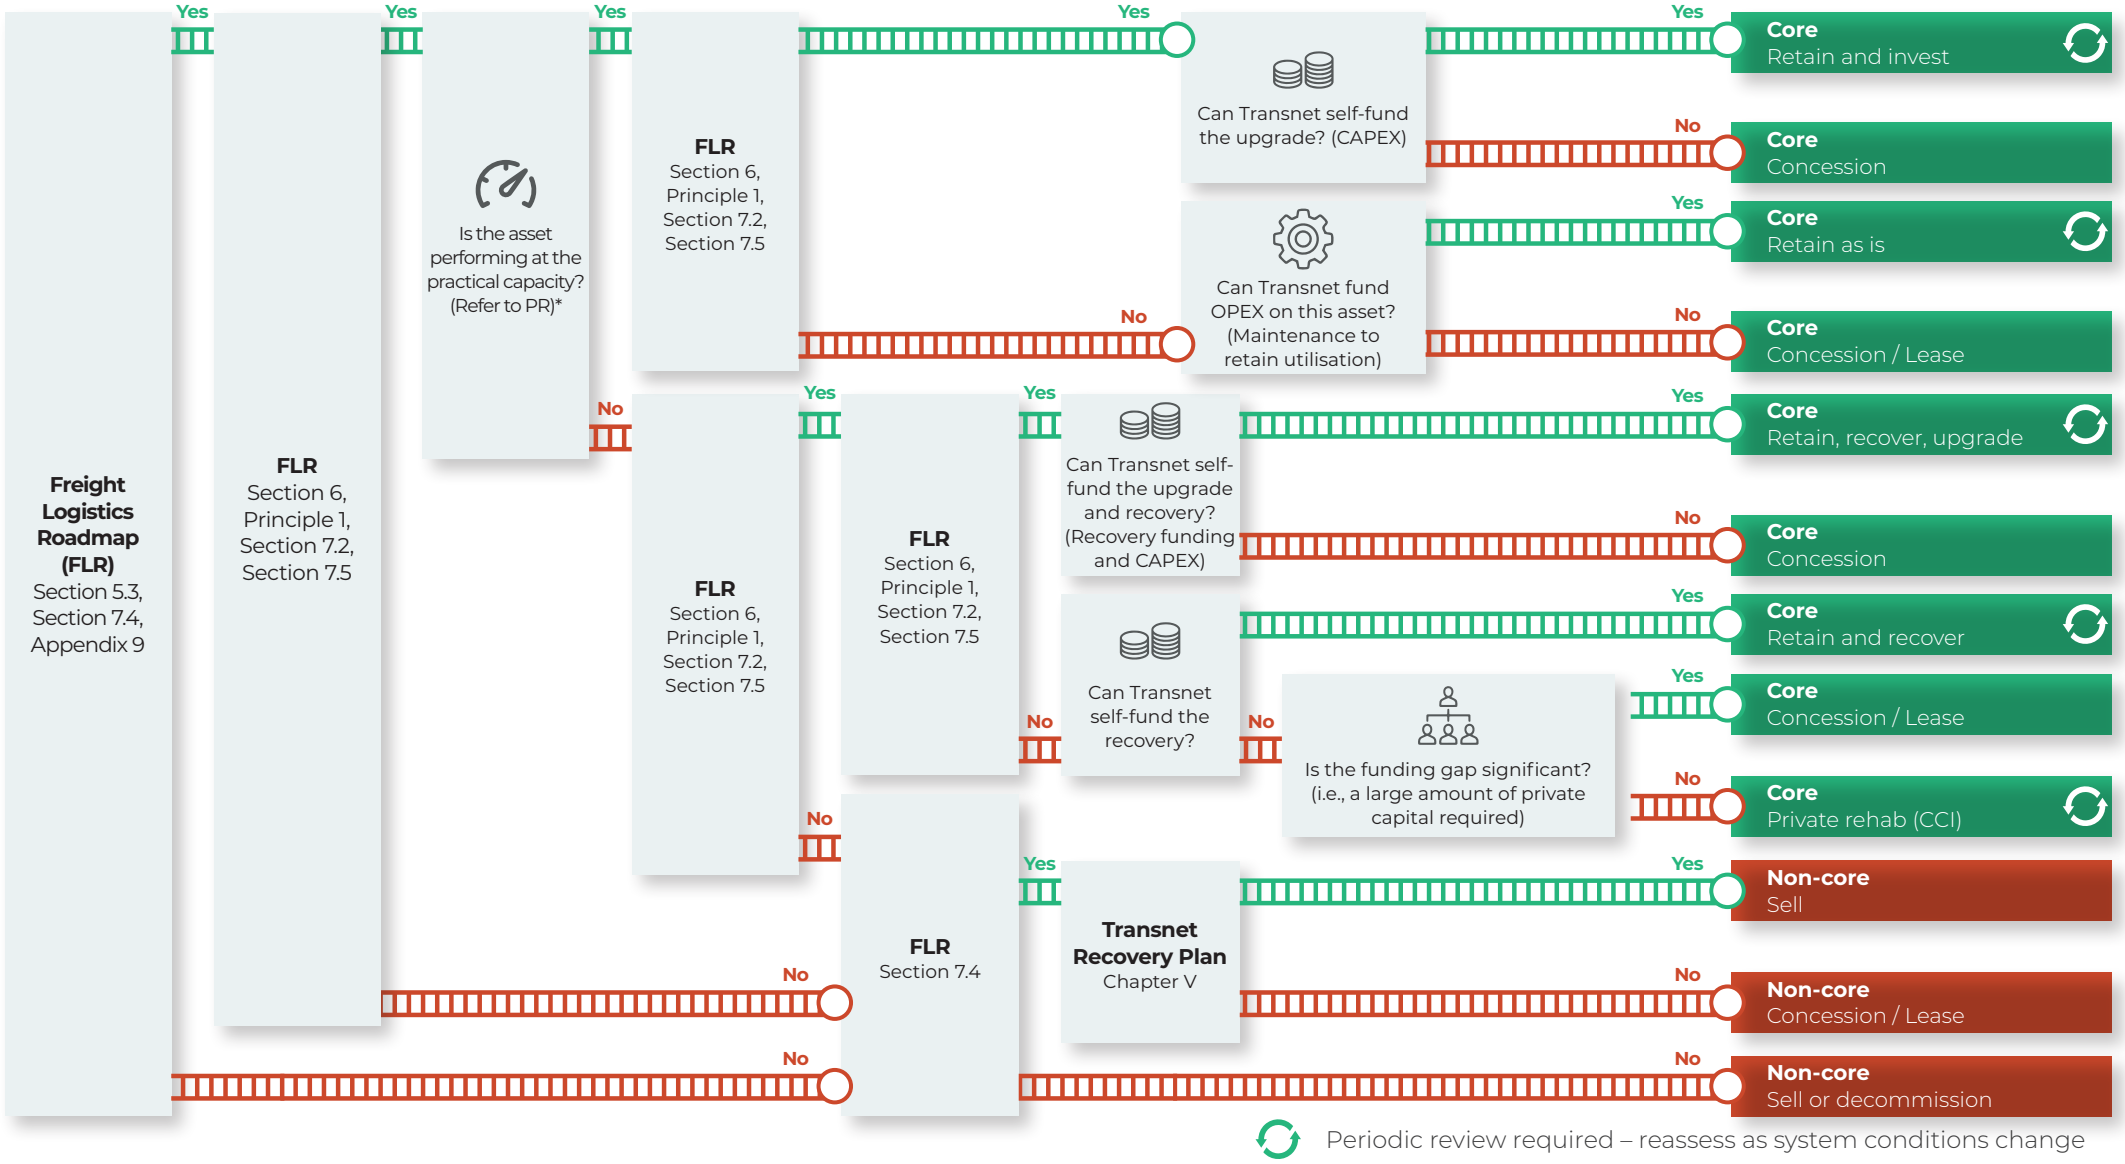

*** Note:** If the main constraint is not the asset itself, but rather an associated upstream or downstream asset, would it perform at practical capacity?

Figure 7.2: *Core versus non-core decision tree*

National policy, instruments and Cabinet-approved planning documents guide the decision tree

Policy frameworks underpin the logic of every decision node, ensuring that the outcome is aligned to planning documents and guarantee conditions.[23]

*** Note:** If the main constraint is not the asset itself, but rather an associated upstream or downstream asset, would it perform at practical capacity?

Figure 7.4: *Underpinning policy for each decision node*
