NDoc Billing/HBS Versions: 1.2.9.37/.38/.39/.40 Release Notes

Summary:

This update contains the following enhancements and corrections. You can verify which release you are currently running as well as view all historical Release Notes by going to Help>Release Notes.

Enhancements:

Version 1.2.9.40 - 09/24/2026

a) Diagnosis table data altered for 10/2026 update 190 additions; 30 deletions; and 4 revisions to diagnosis this year.
b) PDGM Grouper altered for new diagnosis and clinical group changes starting 10/2026.
c) CBSA table altered for new Hospice fiscal year 2027 county rates; FIPS and CBSA designations altered.
d) Hospice billing altered for Hospice fiscal year 2027. Daily rates and hospice cap amount have been altered.
e) Charge entry altered to allow filtering of charges by charge-code. A new dropdown will accept a charge-code and only display charges that have the selected charge-code.
f) Charge detail list altered to fix slowness when requesting to display paid amounts on the export report.
g) PPS-Revenue and Revenue-reporting reports altered SQL so very large clients can have better performance when building the report output.

Version 1.2.9.39 - 08/20/2026

d) Entity load/maintain and Entity list altered to display only units allowed for the user.
e) Entity list altered for restricted units.
f) Charge load/maintain altered agency-unit restrictions for the user.
g) User Security load/maintain altered for unit restrictions.
h) Claim status; Eligibility Real-Time; Eligibility Verification; Electronic Claim Submission; and Electronic Payments altered for Security updates required to interface with Ability/Inovolon Clearing House.

Version 1.2.9.38 - 07/20/2026

a) Altered billing options for new Patient Benefit date.
b) Auto charge generation altered for new option which will flag each charge created in Held status; also on the specific includes tab we added the option for Exclude instead of Include choices.
c) Entity load/maintain altered for new Billing-Requirements option which will ensure NOA has been received before bill can be released.9.
d) Hospice LOC report altered to display NOE-Days on the Export report option.

Version 1.2.9.37 - 06/20/2026

a) New unit restrictions sub-system added to allow restricted access to the following entity types: employee; family; referral; doctor; institute. Once user security unit selections have been established, users will only be allowed to view/update entities that are assigned to their unit(s).
b) Patient load/maintain altered to filter restricted entity types.
c) Charge detail list added a new option to exclude gross amounts for Hospice per diem charges.
d) Category load/maintain altered to display SSA county code when updating CBSA codes.
e) Electronic and UB04 print altered for new options to allow value codes (boxes 39-41) to include SSA codes.
