

Moove launches AI-powered booking and jet pooling agent with Lone Mountain Travel

Newly created Lone Mountain Travel entity will leverage the startup's new booking system to seamlessly organize member's shared trips.

NBAA-BACE (Las Vegas, US) – October 11th, 2025. *Reaching over 200,000 annual passengers supported by its white-label infrastructure, the French American startup is now powering 30 US Part 91, Travel agents & Charter operators, including the Lone Mountain Travel department.*

Cutting-edge technology enabling unique travel experiences

Moove empowers aviation professionals with both on-demand and by-the-seat operations, thanks to a passenger-oriented solution. The platform features corporate-branded customer portals and native apps, enabling autonomous booking and seamless travel planning.

"With Moove's dual platform, we empower aviation professionals to streamline their booking journey. With Lone Mountain Travel's new digital and comprehensive offering for a family of Private Clubs and hotels, we are reaching the summit of air mobility innovation," said Arthur Ingles, Co-Founder and CEO of Moove.

"Our members' experience begins at their doorstep, and Moove's technology will support our mission of delivering exceptional service—bringing them together more efficiently as they travel to Big Sky," added Hanna Drummond, Travel Concierge Manager of Lone Mountain Travel, supporting Yellowstone Club, Moonlight Basin, Spanish Peaks Mountain Clubs and Crazy Mountain Ranch Members.

Reinventing Flight Sharing & Passenger interactions

Moove's scheduling system powers shuttle & helicopter flights, optimizing trips across the Big Sky communities, seamlessly connected with clubs operating systems.

"Our software R&D focuses on enabling smarter communication and more efficient trips. With our new flight-sharing module, closed communities—whether corporate or club-based—can fly more efficiently through AI-driven trip recommendation," said Antoine Awaida, Co-Founder and CTO of Moove.

The software suite also introduces new features, including floorplan mapping, ground services modules, and AI-powered pooling tools, cutting trip management workload by 30%.

Introducing **Moove Copilot** – The first AI jet email plugin

In parallel, Moove is announcing the introduction of its new AI product "*Moove Copilot*". The AI assistant integrates seamlessly as an email plugin on both Gmail, Outlook & Teams and will automatically create trip requests, update passengers' details and quote directly from client emails.

About Moove – www.flymoove.com

Moove is a SaaS (Software-as-a-Service) provider delivering advanced booking and scheduling solutions for operators and charter brokers. It has created the first dual system for on-demand and by-the-seat operations, raising the bar for passenger experience and operational efficiency. Its mission: to build the flight distribution platform of the future. Offers for operators and travel agents are available at: www.flymoove.com/operators

About Lone Mountain Travel – www.lonemountainland.com/travel-and-aviation-development

Lone Mountain Travel is the designated air travel department of Lone Mountain Land Company, proudly serving the Members, guests, and partners of Yellowstone Club, Spanish Peaks Mountain Club, Moonlight Basin, and Crazy Mountain Ranch. Our services also extend to hotel partners, including One&Only Moonlight Basin and Montage Big Sky.

Lone Mountain Travel coordinates private charter flights, ride shares, seasonal air shuttles, and helicopter services. Through Lone Mountain Helicopters—the only company authorized to land within Yellowstone Club, Moonlight Basin, and Crazy Mountain Ranch—we provide safe and efficient air access across Montana and beyond.

THE PLATFORM FOR THE AIR MOBILITY REVOLUTION

As part of the Lone Mountain Land Company family, Lone Mountain Travel delivers reliable, streamlined, and personalized air travel solutions.
