Fisher Street

United for Care's purpose-built Vertical Village was developed to inspire lifestyle freedom in a supportive and open environment located in Sydney's Inner West.

Each studio apartment is fitted with:

- Kitchenette
- Ensuite bathroom
- Bedroom
- Balcony
- Secured doors with swipe access

The Vertical Village offers an environment that builds on our participants' sense of independence with public transport a short walk from the front entrance, as well as many restaurants and cafes close by.

The site has support practitioners on-site 24/7 caring for our participants whilst giving them the opportunity to maintain their sense of freedom in their own space. This property is most suited for people who have psychosocial disabilities.
