# Kensington

Our Kensington home offers Supported Independent Living for people who prefer shared living in a calm, settled environment.

Residents have their own private bedroom and share kitchen, dining and outdoor areas, supporting everyday routines and a sense of community.

The home is located close to shops, transport and local amenities, making community access and daily outings easy. It suits people who enjoy structure, shared meals and spending time with others, while still having their own space to relax.

Support teams are available to assist with daily living, personal care and community access, providing consistent and reliable support while respecting each person's independence.
