What MCP unlocks for agencies:

Turn data into direction

Scale the work that works

How it works in practice

Your workflow with Superfiliate MCP

Pulse check

Start with a high-level view across your brands to quickly spot standouts, declines, reporting gaps, and accounts worth a closer look.

Understand what's driving the change

Dig into any brand to uncover the creators, campaigns, content, and program performance behind the numbers.

Find the opportunity

Surface top performers, inactive creators, overdue deliverables, and other opportunities that deserve your team's attention.

Hand off the work

Take supported action with MCP, from bulk creator updates and briefs to discovery, wallet funding, product updates, and more.

Scale your best processes

Apply the same prompts, reporting, workflows, and playbooks across client accounts while keeping each brand's data separate.
