

A YEAR IN DENMARK WITH IDA

Cut-out sheets to print

1. **Print on thick paper** – card stock, 200–250 g/m² (US: 65–110 lb cover).
Ida, Fnug and the clothes will last much longer.
2. **Print on one side** of the paper only.
3. **Print at 100 % size** ("actual size") – don't choose "fit to page". Use the A4 file on A4 paper and the US Letter file on Letter paper. Then Ida's tab fits the slits in the book exactly.
4. Solid line = cut. Dashed line = fold. Ask a grown-up to help.
5. You may print the sheets as many times as you like – for personal use.

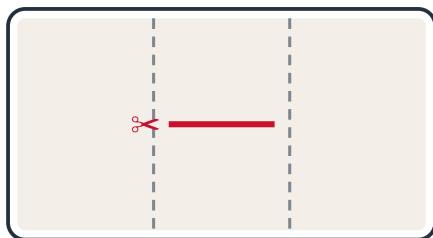

Ida (standing)

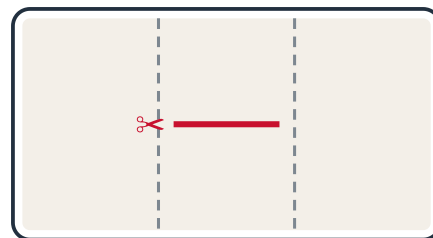

Ida (for sitting)

Fnug

Stand

Stand

Glue this page onto thin cardboard (like a cereal box) before you cut. Ida's tab slides into the slits in the pictures. Use "Ida for sitting" on chairs, the Viking ship and the bike. Fold a stand along the dashed lines and slide a tab into its slit to stand Ida on a table. Clothes and shoes have small white flaps: fold them back behind Ida. Hats and bows have a short line: cut it open and slide the top of Ida's head into it, then fold the side flaps back.

1. Cut out the big square along the solid line.
2. Fold it in half, in half again, and then into a triangle, so the grey shapes are on top.
3. Cut out the grey shapes through all the layers.
4. Unfold! Write a little rhyme and sign with dots: one dot for each letter of your name.

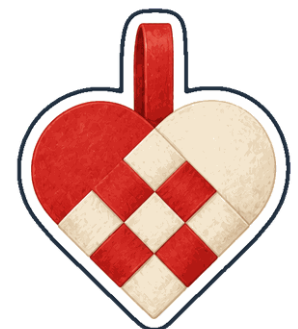

Rhyme idea: "Guess, guess, who could it be? Count the dots and you will see!"

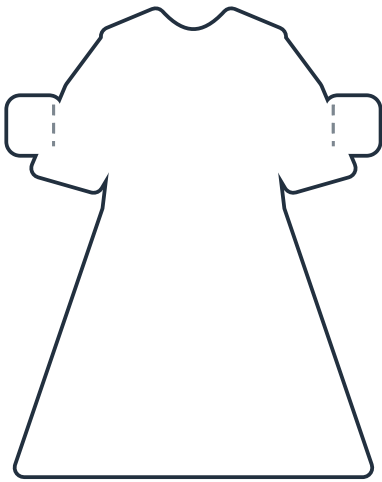

This is how it looks unfolded

1. Cut out both pieces along the solid outline, then cut the 3 long lines.
2. Fold each piece in half on the dashed line, printed side out.
3. Weave: the first strip goes through the first loop, around the next one, through the next... Then the next strip goes the other way.
4. Tricky? Ask an adult to help with the first one. Hang your heart on the tree!
