Make the cleaning water more
pure and sanitary.

+HEALTH
LIFE KEEPER

Ultraviolet sterilization Effectively prevent cross infection

Turn on the UV sterilization lamp and turn off the cover
Effectively remove bacteria and avoid cross infection

Hidden water tank Power outages are easy to deal with

Built-in water tank, does not take up space
Power outage can also flush

With water tank
No pressure limit

&

tankless
Limited by
water pressure

Jet siphon flush
Suitable for all residential toilets

Pulse flush
Suitable for full water pressure toilet

Product parameter

Product type Smart toilet seat	Product material Bulk high temperature ceramics	Cover plate PP intelligent cover plate
Appearance size 680X410X480mm	Pit spacing 300/400mm	Flushing mode Jet siphon type
Rated voltage AC220V 50HZ	Applicable water pressure No tank: 0.05-0.7MPa static pressure With water tank: dynamic pressure 0.15MPa-0.7MPa static pressure	

i The dimensions are manually measured. The difference is normal.
Please refer to the actual object

Kill bacteria in ceramic bucket

The amino acid nucleic acid of thallus was photolysed and destroyed
by ultraviolet radiation
Achieve the purpose of eliminating and killing bacteria.

No pressure limit

With independent water supply kit, quiet and powerful
Whether high-rise or older neighborhoods
The embarrassment of peak water use is gone

+BUILT IN
WATER TANK
