

OVERVIEW:

Providence Investment Partners (“Providence”) is a Dallas, Texas based firm investing debt and equity in proven lower middle market companies. We seek to maximize value for all stakeholders by forming collaborative partnerships; coach and sharing best practices; and utilizing our extensive network.

The Providence team has worked together extensively since 2013 and is comprised of seasoned investment professionals who have invested \$300 million+ of capital in 25+ companies in various economic cycles with successful and consistent results.

WHY PROVIDENCE?

Creative, Flexible & Patient Capital

Each investment is unique, and the team works diligently to tailor and deliver a capital solution that serves as a win-win for all stakeholders. We have the flexibility to invest in subordinated debt, unitranche debt, preferred equity, common equity, or some combination thereof. We recognize success is not always linear, and patience may be required to work through unexpected challenges.

Focused on LMM in Texas & the Southwest

While flexible, our ideal investment includes both debt and equity in lower middle market companies (\$2 to \$10 million of EBITDA). We invest with management teams, owners, independent sponsors, and funded sponsors. We have spent most of our lives in the Southwest. As a result, we have developed an extensive network in this region, which we offer to both management and owners to assist with value creation.

Trusted Relationships

We recognize people are the key to success, and trust is critical to the success of a partnership. From the initial meetings on, we strive to build collegial, long-lasting relationships with owners and management.

Value-Add Partners

The team spends significant time upfront understanding the challenges and opportunities of a business and developing a roadmap to create value. The Providence team applies its decades-long financial and operating experience with both large and small companies to be a value-add, collaborative partner.
