Lendsuite

Clever IDEAS unifies specialized solutions for lenders aiming for efficiency, control, and growth throughout the credit cycle.

Built to Empower You

Centralizes, automates, & optimizes all your key lending processes.

Designed to give financial institutions full visibility, faster operations, and complete control—from origination to credit management.

Integrated with EPIC & INFINITY LMS Platform in the same cloud environment, LendSuite unites your lending ecosystem into a single, powerful technology suite, built to scale with your growth.

Frictionless Capabilities

- Unified Channels:** Voice, SMS, email, web chat, bots, social media, DIDs, Toll-Free, and SIP Trunks—all in one seamless platform.
- Smart Agent Tools:** Single-screen integration with LMS & Dialer, pop-up customer records, click-to-call, and automatic caller ID.
- Instant Campaigns:** Bulk uploads, synchronized campaigns, and automatic transfer of fresh leads for immediate action.
- Data-Driven Operations:** Call codes, dispositions, and comments flow automatically from Dialer to LMS for full visibility.

Technology that drives every credit decision.

Our Highlights

- More efficient and standardized operations.
- Greater control over the credit lifecycle.
- Reduced operational friction and costs.
- Platform designed for financial institutions.
- Strong technological foundation to support growth in volume.
