

1 Create your Design [Detailed Guideline](#)

- Use **CMYK** color mode.
- Place your design on the "Artwork" layer.
- **Do not place important design elements** in the "Reduced Quality Area".
- **Embed all images** (in high resolution).

2 Apply Effects [Detailed Guideline](#)

- **Selective Gloss:** Use the "Gloss" layer with the NOMOQ_Varnish swatch to control gloss elements.
- **Metallic Effects:** Use the "BaseWhite" layer with the NOMOQ_BaseWhite swatch to control metallic elements.

3 Save as PDF [Detailed Guideline](#)

- **One design per PDF** (submit each artwork as a separate file).
- **No crop marks or bleeds** in the final PDF.
- Save with "No Colour Conversion" and "Don't include Profiles" settings.
- Check "Preserve Illustrator Editing Capabilities"
