BACKGROUND

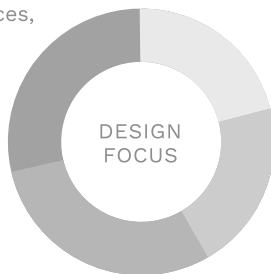

I'm a product designer who loves what I do. I've designed magical experiences at Disney, smart products at Nike, and founded the top ranked iOS app for 12 step meetings, Pink Cloud. I have experience in health & wellness, B2B, e-commerce, wearables & hardware, streaming, intelligent spaces, and other fields.

INTERACTION DESIGN

prototypes, interfaces,
motion, user flow

UX FRAMING

personas, mental models,
journey mapping

VISUAL SYSTEMS

layout, icons, type, color,
brand, libraries

INFO ARCHITECTURE

navigation, data visualization,
contextual requirements

TOOLS

Figma, Adobe CS, Protopie, Principle, Origami, After Effects, Lottie animation, Asana, Jira, Pivotal

PATENTS

MUSIC ENGINE
US9595932

Adaptive music mobile app that analyzes athletic output and remixes music to match the user's exertion level for enhanced flow state, motivation and performance. (Nike Innovation Kitchen)

FLIGHT TIME
US9523704B2

Development of athletic performance metric which is highly predictive of speed and power output in complex footwork sports, such as basketball. (Jordan Footwear Innovation)
