Looks-Like-Real

Realistic replica plant displays with a guarantee

A brand by

VANTAGE SPACES®

Our Products

The Looks-Like-Real™ range is a simple way to bring greenery into any interior. Ideal for shaded spaces or high-heat areas where living plants may not thrive, these pieces allow you to enjoy the look of natural planting without the limitations.

Available in a wide variety of styles and finishes to suit different spaces and budgets, each item arrives ready to display straight from the box. With no installation, construction, or finishing required, they're also incredibly easy to maintain — offering all the visual impact with none of the upkeep.

Why Prospect Plants?

Realistic

Our Production Team choose only the highest quality stems and realistic foliage.

Continuous construction

Featuring fully bonded components from base to tip, our plants do away with the unreliable joints many competitor ranges feature.

Ready to go out of the box

Just open the box and your new plant is display ready - no need to assemble.

2 YEAR guarantee

We are confident in the resilience of our plants. However, if any replica plant display deteriorates within two years due to faulty workmanship, we will replace it for free.*

Strong & resilient

Combining carefully selected components and a high degree of craftsmanship, our plants & planters are resilient & strong - perfect for high traffic areas.

Weighted bases for stability

Pick up one of our plants and you may be surprised at the feeling of weight and quality. The weighted bottoms make the plants stable and durable.

Bonded pebbles

Your plant will arrive with the dressing permanently bonded, meaning no accidental spills to clean up!

Quick and simple to clean

Simply brush the leaves with any small clean brush and use a handheld vacuum for the dressing of the base.
