

The World Sustainability Awards 2025 Shortlist Announced

AIA Group, DuPont, Henkel, Volkswagen Group are among the list of organisations that have demonstrated sustainability excellence for their businesses and the wider community. [See the full shortlist here.](#)

London, 26 June 2025: The World Sustainability Awards 2025 shortlist has officially been announced, spotlighting the boldest and most impactful sustainability initiatives from across the globe. Among this year's standout finalists are organisations that are setting new standards for responsible business and community impact.

This year's shortlist of 96 organisations across 15 categories recognises those who have embedded sustainability deep into their business strategy, showing remarkable courage, innovation, and resilience in a rapidly evolving global landscape.

The shortlist was evaluated by an expert panel of Chief Sustainability Officers and senior sustainability leaders from renowned organisations, including Asahi Group, Barilla Group, Perfetti Van Melle, and HEINEKEN. The judging process was thorough and independent, ensuring integrity and excellence in every category.

Winners will be announced on 16 October 2025 live at The Garden of Amsterdam. The awards will follow the [World Sustainability Congress 2025](#), a flagship gathering of more than 300 global sustainability leaders, innovators, and decision-makers. Find out more and download the agenda [here](#).
