

Australian Spatial Analytics

Neurodiversity Training

— FINANCIAL REVIEW BOSS —
MOST INNOVATIVE COMPANIES

Australian Spatial Analytics (ASA) is one of Australia's largest and fastest-growing work-integrated social enterprises. We create an inclusive workplace for young neurodivergent adults to learn new, in-demand geospatial and digital engineering skills while earning a full-award wage. Since 2020, we've provided careers for hundreds of young neurodivergent adults across Australia.

Is your organisation looking to harness the power of a neurodiverse workforce?

At ASA, we're a leader in empowering neurodiversity in the workplace. We've leveraged our own experience to provide a unique training program that empowers organisations to embrace a neurodiverse workforce and the benefits it brings.

By investing in neurodiversity training, your organisation is taking a significant step towards building a more inclusive and effective workplace. You're also unlocking the potential of a talented workforce with exceptional problem-solving and analytical skills - exactly what you need to foster an innovative and inclusive culture within your organisation.

At a glance

Who?

Any organisation wishing to promote awareness and build a more inclusive and neurodiverse workplace. We also provide neurodiversity training for our Talent Services partners.

Where?

In-person sessions at your workplace or online across Australia.

How?

Neurodiversity Awareness is a standalone session. All other courses are offered both as individual sessions or as a tailored package designed to follow Neurodiversity Awareness.

What will you learn?

Our neurodiversity training program equips your team with the knowledge and skills to create a neuroinclusive workplace environment where everyone can thrive and contribute their unique talents. Our courses provide real-life and practical advice based on our experiences with our 80% neurodivergent team.

"I am delighted to endorse the Australian Spatial Analytics Neurodiversity in the Workplace Training Program. The M80 Ring Road Alliance proudly aligns itself with ASA and collaborates closely to champion a neuroinclusive workplace environment for both their employees and our own. ASA adopts a people-centric approach to guide and assist our organisation in fostering a neuroinclusive culture within the construction industry and beyond."

Jenna Downes
Inclusion Manager, M80 Ring Road Alliance

Neurodiversity Awareness

Duration: 1 hour

A broad overview of neurodiversity, including autism, ADHD, and dyslexia, neurodivergent experiences in the workplace, how neurodivergence can present at work and why a neuroinclusive work environment benefits everyone.

Anxiety, Neurodivergence and the Work Environment

Duration: 1.5 hours

In this session, you'll find out how to address anxiety and how it can occur and explore ways to circumvent or reduce its impact on individuals and the workplace.

Leading Neurodiverse Teams

Duration: 1.5 hours

Find out the importance of self-awareness and building healthy connections as a leader via scenario-based group discussions.

Neuroinclusion in Action

Duration: 1.5 hours

In this session, you'll workshop methods to implement ASA's practical and successful tips as you develop a neuroinclusive workplace that everyone deserves.

Neuroinclusive Communication

Duration: 1.5 hours

Recognise (and challenge) what is generally assumed throughout traditional workplace communication and learn how to communicate effectively across a neurodiverse work environment.
