

## Investors Exchange Product Information Circular 2026 - 0014

Date: January 12, 2026

Re: Themes ETF Trust

This Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges ("UTP") on the Investors Exchange ("IEX" or the "Exchange") as UTP Derivative Securities pursuant to IEX Rule 16.160. Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded funds. Please forward this Information Circular to interested persons within your organization.

### Exchange-Traded Fund / Symbol

Leverage Shares 2X Long ALB Daily ETF	ALBG
Leverage Shares 2X Long UUUU Daily ETF	UUUG
Leverage Shares 2X Long HUT Daily ETF	HUTG

Issuer/Trust: Themes ETF Trust

Issuer/Trust Website: [www.themesetfs.com](http://www.themesetfs.com)

Primary List Exchange: Nasdaq

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the products. For a more complete description of the Issuer, the securities and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange.

### Background Information on the Funds

Themes ETF Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The Trust consists of separate exchange-traded funds (each, a "Fund"). This circular refers only to the Funds listed above. The shares of the Fund are referred to herein as "Shares." Themes Management Company, LLC (the "Adviser") serves as the investment adviser for the Fund.

The **Leverage Shares 2X Long USAR Daily ETF** (the "Fund") seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund's objective is to magnify (200%) the daily performance of the publicly traded common stock of USA Rare Earth, Inc. (Nasdaq: USAR) ("USAR" or "Underlying Security"). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the

result of each trading day's compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor's returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund's return as much as, or more than, the return of the Underlying Security.

The **Leverage Shares 2X Long ONDS Daily ETF** (the "Fund") seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund's objective is to magnify (200%) the daily performance of the publicly traded common stock of Ondas Holdings Inc. (Nasdaq: ONDS) ("ONDS" or "Underlying Security"). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the result of each trading day's compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor's returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund's return as much as, or more than, the return of the Underlying Security.

The **Leverage Shares 2X Long PLUG Daily ETF** (the "Fund") seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund's objective is to magnify (200%) the daily performance of the publicly traded common stock of Plug Power Inc. (Nasdaq: PLUG) ("PLUG" or "Underlying Security"). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the result of each trading day's compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor's returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund's return as much as, or more than, the return of the Underlying Security.

The **Leverage Shares 2X Long ALB Daily ETF** (the "Fund") seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund's objective is to magnify (200%) the daily performance of the publicly traded common stock of Albemarle Corporation (NYSE: ALB) ("ALB" or "Underlying Security"). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the result of each trading day's compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor's returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund's return as much as, or more than, the return of the Underlying Security.

The **Leverage Shares 2X Long UUUU Daily ETF** (the "Fund") seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund's objective is to magnify (200%) the daily performance of the publicly traded common stock of Energy Fuels Inc. (NYSE: UUUU)

(“UUUU” or “Underlying Security”). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the result of each trading day’s compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor’s returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund’s return as much as, or more than, the return of the Underlying Security.

The **Leverage Shares 2X Long HUT Daily ETF** (the “Fund”) seeks daily leveraged investment results and is very different from most other exchange-traded funds. As a result, the Fund may be riskier than alternatives that do not use leverage because the Fund’s objective is to magnify (200%) the daily performance of the publicly traded common stock of Hut 8 Corp. (Nasdaq: HUT) (“HUT” or “Underlying Security”). The return for investors that invest for periods longer or shorter than a trading day should not be expected to be 200% of the performance of the Underlying Security for the period. The return of the Fund for a period longer than a trading day will be the result of each trading day’s compounded return over the period, which will very likely differ from 200% of the return of the Underlying Security for that period. Longer holding periods, higher volatility of the Underlying Security and leverage increase the impact of compounding on an investor’s returns. During periods of higher Underlying Security volatility, the volatility of the Underlying Security may affect the Fund’s return as much as, or more than, the return of the Underlying Security.

The Fund is not suitable for all investors. The Fund is designed to be utilized only by knowledgeable investors who understand the potential consequences of seeking daily leveraged (2X) investment results, understand the risks associated with the use of leverage and are willing to monitor their portfolios frequently. The Fund is not intended to be used by, and is not appropriate for, investors who do not intend to actively monitor and manage their portfolios. For periods longer than a single day, the Fund will lose money if the performance of the Underlying Security is flat, and it is possible that the Fund will lose money even if the performance of the Underlying Security increases over a period longer than a single day. An investor could lose the full principal value of his/her investment within a single day if the price of the Underlying Security falls by more than 50% in one trading day.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Fund issues and redeems Shares at net asset value (“NAV”) only in large blocks of shares, respectively, (each block of Shares called a “Creation Unit”) or multiples thereof. Each Creation Unit consists of 5,000 shares. As a practical matter, only brokerdealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Dividends from net investment income, if any, are declared and paid annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid annually.

Shares are held in book-entry form, which means that no share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares and is recognized as the owner of all Shares for all purposes.

The NAV of the Fund is generally determined as of the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange is open for business. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (i.e., the value of its total assets less

total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent.

The registration statement for the Fund describes the various fees and expenses for the Shares. For a more complete description of the Fund and the underlying indexes, visit the Fund's website.

### **Purchases and Redemptions in Creation Unit Size**

IEX Members are hereby informed that procedures for purchases and redemptions of Shares in Creation Units are described in the Trust's Prospectus and SAI and that Shares are not individually redeemable but are redeemable only in Creation Unit aggregations or multiples thereof.

### **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These may include, but are not limited to, asset class risk, authorized participant concentration risk, concentration risk, currency risk, cyber security risk, equity securities risk, fluctuation of net asset value risk (NAV), index risk, industry/sector risk, issuer risk, management risk, market maker risk, market risk, market trading risk, non-correlation risk, non-diversification risk, passive investment risk, replication management risk, securities lending risk, tracking error risk, trading issues risk, and valuation risk.

In addition, the market prices of the Shares will fluctuate in accordance with changes in NAV as well as the supply and demand for the Shares. As a result, the Shares may trade at market prices that may differ from their NAV. The NAV of the Shares of the Fund will fluctuate with changes in the market value of the Fund's holdings.

### **Exchange Rules Applicable to Trading in the Shares**

Trading in the Shares on IEX is subject to IEX trading rules.

### **Trading Hours**

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session. The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

### **Delivery of a Prospectus**

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an IEX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities].

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule. Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

### **Suitability**

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

### **Trading Halts**

The Exchange will halt trading in the Shares of a security in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange- traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

#### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

1. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
2. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
3. such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
