

PORTABLE MORGUE EXPANSION CUBE

Paladin has long established itself as the largest and highest quality manufacturer and lessor of purpose-built, high-quality mobile, portable and temporary mortuary surge solutions in North America. Paladin has manufactured and deployed hundreds of mobile morgue expansion trailers and containers in response to and preparation for short- and long-term mortuary surges created as a result of pandemic, transportation incidents and mass shootings.

Paladin has become a trusted partner to the most prominent government agencies across the United States including the VA, FEMA, HHS, California OES, Texas HHS, New Mexico HHS and over 100 hospitals, cities, counties states and tribes.

Paladin's Mobile Morgue Expansion Cube is a true game changer, enabling end users to prepare for and deploy to incidents with a device that stows in a closet and deploys to store 12 decedents in only 30 minutes. The "Cube" has multiple, unique design features that set it apart from any other product in the market in terms of ease of use electrical requirements, durability, size and weight.
