NextQS Solution

Customers can book appointments 100% online, from a mobile — no app downloads, no complicated sign-ups.

Bookings are available 24 hours a day, with total convenience and ease.

If the customer cancels, time slot is automatically released for another appointment. Simple, fast and efficient.

Integrated with on-site and virtual queues, keeping service flow consistently organised.

Automatic confirmation and reminders via WhatsApp, SMS or email.

Simple and intuitive

Ensures greater convenience and autonomy for your customers, allowing them to book from anywhere, without calls or queues.

Fast online booking and scheduling

NextQS makes it easy for customers to book, while keeping your service operation in control.

For your business, this means:

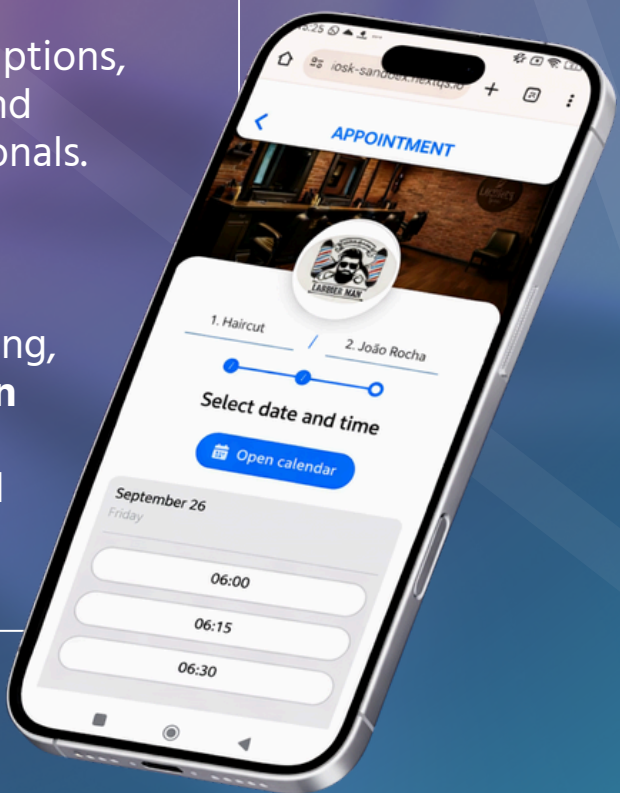

+ Increased productivity
+ Team time optimization
+ Operational visibility with real-time data
+ Faster service delivery
+ Higher customer satisfaction
+ Increased revenue opportunities

Customize the booking journey

The **NextQS system** was designed to fully adapt to your operation, with a **complete configuration and management dashboard.**

Add service descriptions, images, pricing, and available professionals.

With centralized management and real-time monitoring, your **team stays in control** of appointments and **service capacity.**

Customized Settings:

- Branded service catalogue (logo and colours)
- Automatic confirmations via email, SMS, or WhatsApp, plus proximity alerts
- Google, Apple and Outlook Calendar integration
- Integrated virtual queue to keep appointments in the right order
- Capacity control and schedule blocking for exceptions
- Strategic reports with punctuality and attendance rates

Smart check-in (optional)

Customers arriving within the defined window enter a priority queue — improving punctuality and smoothing service flow.

MORE CONVENIENCE FOR YOUR CUSTOMERS, MORE EFFICIENCY FOR YOUR OPERATION

SOME APPLICATION EXAMPLES:

Table booking:

Customers choose the time and number of guests directly from their mobile phone.

Service Booking:

Selection of service, professional, and time in clinics, beauty salons, and more.

Experience Reservation:

Customers secure fast and organized access to events, stores, or attractions.

BENEFITS:

Greater autonomy and freedom for your audience

Reduced waiting times and physical queues

Increased team productivity

Improved customer satisfaction and loyalty

Full control over schedules and resources

ACCELERATE YOUR DIGITAL TRANSFORMATION

With NextQS, appointment booking becomes part of the service experience. Turn every booking into an intelligent connection between your brand, your team and your customers.
