Getting Started with Adobe Express

Technical requirements:

- Laptop, PC, Chromebook, Mac, Android phone, iPhone, and iPad (mobile devices might have some limitations)
- Check access on computers by going to express.adobe.com or the mobile apps, and sign in using your school email

adobe.ly/setup-express

If you can't access the QR code:

1. Go to http://adobe.ly/deca
2. Select "Get started"
3. Follow the prompts to create your account — Caution: You must use a school email to create your educator account, which allows you to access education features, classroom management tools, and assignments. Changing your email address to one outside your school's domain will result in a loss of your educator status and all associated features.
4. Answer the questions about your educator status accurately to ensure you get access to the right kind of account
5. Select "Done"

Many schools and school districts have partnered with Adobe to get Express for Education accounts for all their educators.

To access your provisioned account:

1. Go to http://adobe.ly/deca
2. Select "Get started"
3. If prompted, select that your account will be for school use that you are an educator
4. When you get to the Adobe Express home screen, navigate to "Classrooms" to manage your students and assignments
