We proudly support

Introduction to Digital Skills and Computer Applications, 1st ed.

New!

Build the Digital Skills Needed for School, Work, and Everyday Life

Designed for late middle or early high school, this brand new program prepares students to thrive in today's technology-driven world. Through interactive lessons and creative projects, students learn how digital tools enhance communication and problem-solving in school, career, and life.

Students using *Introduction to Digital Skills and Computer Applications* will learn to:

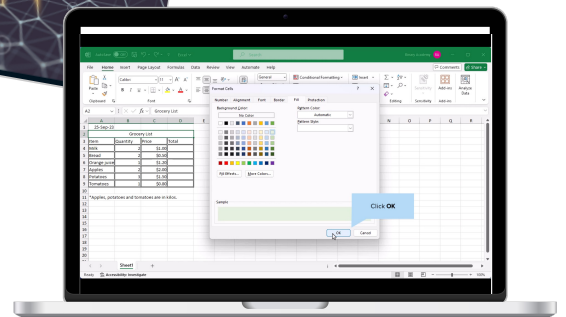

- Master the basics of computers, files, and operating systems
- Navigate online resources, collaborate in the cloud, and practice responsible digital citizenship
- Design documents, digital images, infographics, and multimedia projects
- Organize and present data using spreadsheets and charts
- Explore AI basics and how to use AI tools responsibly

Table of Contents

- Chapter 1: Learning the Basics (Windows, etc.)
- Chapter 2: Getting Online (Multiple Apps)
- Chapter 3: Exploring Cloud Tools (Google Forms, Sheets, Drive)
- Chapter 4: Working with Numbers (Excel)
- Chapter 5: Collecting Information (Excel)
- Chapter 6: Advanced Imaging (GIMP)
- Chapter 7: Creating a Document (Word)
- Chapter 8: Designing a Document (Word)
- Chapter 9: Presenting Your Ideas (PowerPoint)
- Chapter 10: Documents for a Purpose (Microsoft Office, Canva)

A full interactive digital solution and teacher support ensures students and teachers progress at every step.
