Projects we have done:

Metaverse for Ministry of energy and infrastructure

وزارة الطاقــــة والبنيــــة التحتيــــة
MINISTRY OF ENERGY & INFRASTRUCTURE

The Metaverse project is a web-based platform that has been localized for the UAE, making it widely accessible. Visitors can explore a variety of locations including buildings for Iskan projects and more. With a localized design highlighting the culture and beauty of the UAE, the Metaverse project promises to be an exciting new frontier in virtual reality for visitors from all around the world.

Visitors can access the services of the Ministry through this platform, providing a convenient and efficient way to access government services.

Dubai Electricity & Water Authority

Dewaverse provide its services to its customers and employees, in the Metaverse world. Making it the 1st local government entity to launch its virtual platform using Metaverse technology.

DEWA invested in Metaverse technology to implement and develop its current and future projects for various stakeholders, including employees, customers and all members of the society. Which will contribute to achieve their happiness in addition to contributing to the development of businesses, raising the level of efficiency and production, and reducing cost.

Projects we have done:

AI project and UAE in past project for
Sharjah Institute of heritage

AI

Our AI talking project for Sharjah Institute of Heritage not only provides a more convenient way for users to access information, but it also helped reduce costs and increase work efficiency. The system's intuitive and natural user experience streamlines communication and eliminates the need for human intervention in certain tasks, resulting in a more efficient use of resources.
VR

Our virtual reality project with the Sharjah Institute of Heritage has been a resounding success, with the experience being delivered to more than 30 locations across the UAE. The project has allowed visitors from all over the country to immerse themselves in the heritage and old stories of the UAE, and gain a deeper appreciation of the country's rich cultural history.
