DIGITAL PERMITTING.

A DIGITAL PARKING PERMIT IS LIKE A VIRTUAL PERMISSION SLIP FOR A VEHICLE.

A permit is a right to park that is pre-arranged and has a set duration or occurrence.

THE INUGO PERMITTING SOLUTION SUPPORTS:

- RESIDENT PERMITS
- VISITOR PERMITS
- CARER PERMITS
- CUSTOM PERMITS
- CONTRACTOR PERMITS
- STAFF PERMITS
- STUDENT PERMITS

FEATURES OF THE PERMITTING SYSTEM INCLUDE:

- Location creation/management
- Permit configuration creation/ management
- Customer permit tracking
- Customer management
- Prioritised permit assignment based on application
- Migration from existing systems through CSV imports

THE CUSTOMER PERMIT PROCESS

- LOCATION REGISTRATION
- PERMIT APPLICATION
- PERMIT MANAGEMENT
- PERMIT PAYMENT
- VEHICLE DETAIL MANAGEMENT

INUGO'S PRODUCT SUITE PRESENTS A COMPREHENSIVE, CUSTOMISABLE, AND USER-CENTRIC SOLUTION FOR ALL ASPECTS OF PARKING MANAGEMENT

inugo.

FEATURES.

This self-service platform is customisable on a location basis, allowing you to define parameters, pricing, quantity limits, and even prioritisation rules. Approval workflows can be automated or manual, and all permit requests are conveniently organised in a dashboard.
