

Copy & Paste Email — Request a Public Fatality Inquiry

Subject: Request for a Public Fatality Inquiry into the Death of Parker Wells

Dear Minister Amery,

I am writing to ask you, as Alberta's Minister of Justice, to order a **public fatality inquiry into the death of Parker Wells**.

The City of Calgary's 911 review answered important questions about the initial emergency response, but significant questions remain about the broader sequence of events.

A public fatality inquiry could independently examine the supervision, and care Parker was receiving, how and when his absence was reported, the 911 and police response, the search and public-alert decisions, and relevant safety conditions and infrastructure.

This is about more than determining what happened. It is about identifying systemic gaps and making recommendations that may help prevent another vulnerable person and their family from experiencing a similar tragedy.

Please advise whether you will order a public fatality inquiry and the anticipated timeline for that decision.

Thank you for your consideration.

Sincerely,
[Your Name]
[City/Town], Alberta
