

ABC Global Decade Report 2015-2025: Key achievements, gaps and inequities in the care for advanced breast cancer

9 December 2025, 09:30-10:45

Henry B. González Convention Center, Meeting room 221ABC

The last ten years have proven that collective action can drive meaningful change, laying the foundation for the decade ahead. While we celebrate progress, the ABC Global Decade Report exposes critical gaps and inequities that demand urgent action. These findings are the basis of the new ABC Global Charter, with 10 goals for the next decade, that can unite the whole community to improve the lives of all those living with advanced breast cancer.

PROGRAMME

Moderators: Eric Winer, US and Fatima Cardoso, PT
