THE STORY

With over 50 years of experience in the construction industry, this business supplies and installs specialist building materials nationwide. Working within the construction and refurbishment industries, they saw a slow in business during the pandemic.

But now they're starting to pick up more business and are back on track to achieve the same healthy growth they were seeing in recent years. As a result, their cash flow needs have changed, so they were looking for financing that could support this increase. Within a week we'd approved and set up their £230k CBILS revolving credit facility, so now they can access the cash they need, when they need it most.
