Red/Sika Hybrid

Lincolnshire, England

Our England hunt is in the countryside of Lincolnshire, with historic links to the one and only Robin Hood! The landscape is predominantly flat with large open fields and strong hedges which provide great cover while hunting the shy Roe Deer (Apr 1st - Oct 31st). On the borders of Lincolnshire and Cambridgeshire, we have a 1,750 ac estate which is predominantly Muntjac (year-round) and Fallow Deer (Aug. 1st - Apr. 30th). The estate consists of old deciduous woodland, perfect for stalking, and open farmland providing good high-seat shooting for Fallow deer. Near Buckinghamshire, hunting grounds for the Chinese Water Deer (Nov 1st- Mar 31st) consist of a mixture of grassland, crops, and gentle rolling fields. Accommodation is provided by England guides at their trophy-inspired hunting lodge.
