Coatimundi \$650.00 USD
Aoguti \$500.00 USD
Tinamu \$480.00 USD

The Hunt

Hunting is mostly on a machan or high blind, though some species are hunted on foot. For Brouchet Deer the machan is the most effective method and the best time usually February, March and April, especially for the red which is without a doubt the most prestigious and sought after trophy in the Mexican jungle, and of course they are also good for the beautiful grey brocket, for Turkey, April is prime time, and we usually call them in the early mornings or late afternoon, or trying to get them while there singing over the trees.

The hunting area is located in Calakmul, Campeche a two-and-a-half-hour drive for the nearest airport of Chetumal, Quintana Roo.

We recommend the use of a 12-gauge shotgun for all around hunting, with 6 down to BB pellet size for the birds and from 4Buck and bigger for the deer. Rifle hunting can prove extremely difficult because the jungle can be incredibly thick, and the visibility can be extremely poor (10-25 yards at the most in most machans).

Although we have an area with incredibly high numbers of all of our offered species, by nature the game is very skittish and hard to see; this is a hunt that requires patience and persistence. Every day you go hunting in motorcycles, quads, or pickup with your guide, you go back to camp for lunch and in the afternoon, you go hunting again until dark, in camp you have dinner, shower and a couple of beers.

Example of Itinerary:

Day 1 You arrive to Chetumal early in the morning, you're driven to the hunting area, you have lunch and hunt in the afternoon.

Day 2 to Day 6 You hunt mornings and evenings, maybe sometimes the whole day packing lunch with you.

Day 7 Early breakfast and farewells you are driven back to Chetumal.

Weather

You should expect very warm weather, but sometimes at night it can get chili, this is very high jungle after all. Expected temperatures are between 75° to 100° degrees Fahrenheit, and at night 50° to 70°.

It normally should not rain, but a rain poncho or rain gear is never a bad idea.

Camp

Camp is very rustic, basically Wood cabins with insect protection nets, a fan, hammocks for resting in midday, and of course beds, with mattresses, clean sheets, and a shared bathroom with

shower and running water. The kitchen and dining area are also a wooded cabin separate to the sleeping quarters.

Our camp staff is very complete, with four head guides, two scouts, two kitchen staff and cook, and there is always help readily available for anything you need.

Food

We serve delicious and typical food or southeastern Mexico, we also eat a lot of what is hunted during the trip, many animals here in the jungle are true culinary delicacies! We can attend every eating preference with no problem, we just need to know in advance what that would be.

TERMS AND CONDITIONS

For Hunts A and B:

- a) Every shot made to a brocket deer will be counted as a shooting opportunity, it doesn't matter if the shot was missed;
- b) Will be considered as a valid shooting opportunity if the hunter decides to pass a grey or red brocket deer because it has not a clear shot, get nervous or decide to pass because of trophy size;
- c) Both hunts are pre-scouted and hunter will have a main guide and group of explorers, all the team has the intention to exert best efforts to maximize the success rate;
- d) If there is no shooting opportunity at all, trophy fee will be credited to the hunter, or can be used for other species trophy fees or towards next season as deposit;
- e) If the hunter decides to come back in the same season or double his stay (if possible) can be done paying only expenses;
- f) There will be no credit of trophy fee if hunter decide to jump on the machan with his observer;
- g) Shotgun rentals shall be paid in cash upon arrival at the camp;
- h) Any shot made to another brocket deer killed or not, will charge as trophy fee list.
- a) For other species if feathers or blood is founded on the shooting place, hunter will pay trophy fee as listed.

For Hunts C:

- b) Hunt will be conducted over different machan's trying to get best chances for success;
- c) Hunter will pay trophy fee for any shoot taken to a Brocket Deer, doesn't matter if the team do not find the deer or blood;
- d) Shotgun rentals shall be paid in cash upon arrival at the camp;
- e) If feathers or blood is founded on the shooting place, hunter will pay trophy fee as listed.

For Hunts D:

- a) Shotgun rentals shall be paid in cash upon arrival at the camp;
- b) Hunter is not allowed to shoot any brocket deer from a machan, if during the walks hunting the birds and small mammals are lucky enough to see one, they can shoot it paying the trophy fee;
- c) If feathers or blood is founded on the shooting place, hunter will pay trophy fee as listed.

The Hunt

Hunting is mostly on ground blinds, though some species are hunted on foot. For Turkey, May-June is prime time in our area, and we usually call them in the early mornings or late afternoon, or trying to get them while there singing over the trees, we can wait for them in feeders and water holes as well.

The hunting area is located in the peninsula of Yucatan a one and a half-two -hour drive for the nearest airport of Mérida, Yucatán.

We recommend the use of a 12-gauge shotgun for all around hunting, with 6 down to BB pellet size for the birds and small game.

Although we have an area with incredibly high numbers of all of our offered species, by nature the game is very skittish and hard to see; this is a hunt that requires patience and persistence., having to the an 100% Success rate on shooting opportunity.

Every day you go hunting in motorcycles, quads, or pickup with your guide, you go back to camp for lunch and in the afternoon, you go hunting again until dark, in camp you have dinner, shower and a couple of beers.

Example of Itinerary:

Day 1 You arrive to Merida early in the morning, you´re driven to the hunting area, you have lunch and hunt in the afternoon.

Day 2 to Day 4 You hunt mornings and evenings, maybe sometimes the whole day packing lunch with you.

Day 5 You hunt in the morning, then after lunch and farewells you are driven back to Merida.

Weather

You should expect very warm weather, but sometimes at night it can get chili, this is very high jungle after all. Expected temperatures are between 80° to 105° degrees Fahrenheit,.

It normally should not rain, but a rain poncho or rain gear is never a bad idea.

Camp

Camp is very rustic, basically small local ranch houses, clean and comfortable with A/C, hammocks for resting in midday, and of course beds, with mattresses, clean sheets, and a shared bathroom with

shower and running water. The kitchen and dining area are also separate to the sleeping quarters.

Our camp staff is very complete, with 4 head guides, two scouts, two kitchen staff and cook, and there is always help readily available for anything you need.

Food

We serve delicious and typical food or southeastern Mexico, we also eat a lot of what is hunted during the trip, many animals here in the jungle are true culinary delicacies! We can attend every eating preference with no problem, we just need to know in advance what that would be.
