Where Adventure Meets Precision.

HTS is a family run, and operated safari business based in South Africa. Started in 2008 by Mike and Natalie Birch. Mike operates the hunting, while Natalie runs the ecological side. With both of their knowledge and passion for the African veld, they provide you with a unique African hunting experience, an experience that will leave you with unforgettable memories and knowledge of the African hunting environment.

They are ably assisted with a management team which includes Megan on social media marketing and the young up and coming hunter, Kayleigh - a true family operation.

"Mike Birch and his team at Hunt the Sun are everything you want to take care of your dreams in Africa. I am a hunter and have hunted with Hunt the Sun many times. I am also scheduling my next trip in May of 2025. I first saw Mike on TV and was super impressed with his deep knowledge of the animals, birds, insects, and fauna. After spending weeks with Mike on various safaris in several African countries and properties I just respect him more. I have taken all of the animals I ever asked him to put me on from plains game to dangerous game. Mike is a pro and you should talk to him! I shot a huge Nile Crocodile in the summer of 2023 in Zimbabwe with Mike and it is still a pinnacle of my trophies. September of 2024 Mike put me on 7 specific plains game trophies including a hard to find trophy Kings Wildebeest. I can't wait to go back and add the quality time in Africa and finding some additional trophies. We also look forward to and enjoy many adventures helping manage the herds by shooting culls. "
