EXECUTIVE SUMMARY

Established in 2017, Siriano is a multidisciplinary architecture and interior design practice dedicated to delivering innovative, functional, and timeless design solutions across residential, commercial, and bespoke developments.

The firm was founded with a vision to provide a holistic design approach that integrates architecture, interior design, and master planning into a seamless creative process. At Siriano, we believe every space has a unique identity, and our approach is centred on understanding the aspirations, lifestyle, and functional requirements of our clients to create environments that are both purposeful and inspiring.

Our design philosophy combines creativity, technical expertise, and attention to detail to deliver spaces that achieve the perfect balance between aesthetics, functionality, and longevity. From intimate interiors to large-scale architectural developments and distinctive building facades, we create solutions that respond to context, enhance user experience, and stand the test of time.

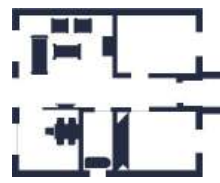

Driven by a commitment to excellence, quality craftsmanship, and the use of carefully selected materials, Siriano continues to deliver design experiences that transform spaces and elevate the way people live, work, and interact with their environments.

We are committed to advancing the standards of architecture and interior design by creating exceptional spaces that reflect our clients' visions while contributing positively to the built environment.

“Good buildings come from good people, and all problems are solved by good design”- Stephen Gardiner

FOUNDING TEAM

Adewunmi Adegbola - Lead Interior Designer

Adewunmi is an accomplished Interior Designer and Co-Founder of Siriano, a multidisciplinary architecture and interior design practice focused on creating refined, functional, and enduring spaces.

Her journey into design began with a foundation in Accounting and Finance, having graduated from the University of Manchester in July 2011. Following her passion for creativity and the built environment, she transitioned into the world of design, combining her analytical background with a strong creative perspective to develop a unique approach to spatial design.

Adewunmi commenced her design career with Design Options Limited and DOII Designs Limited between 2011 and 2013, where she gained valuable experience delivering a diverse range of projects, including premium residential developments and large-scale commercial spaces. In pursuit of further developing her design expertise, she studied Interior Design at the renowned Istituto Marangoni Milano, one of Europe's leading institutions for fashion, art, and design education. She graduated in November 2014 with a Second Class Upper Division, strengthening her skills in design concepts, materiality, detailing, and the creation of immersive interior environments.

In December 2017, Adewunmi co-founded Siriano with the vision of delivering thoughtful, innovative, and high-quality design solutions that balance aesthetics, functionality, and the individual identity of each space. Under her leadership, Siriano has successfully delivered a portfolio of residential and commercial projects across Nigeria, as well as residential developments in the United Kingdom.

In March 2023, Adewunmi was appointed as the official liaison for Luxeliving S.R.L., representing a selection of prestigious Italian luxury furniture brands within the Nigerian market. Through this role, she continues to contribute to the growth of high-end interior design standards and the integration of international design excellence within Nigeria.

Adewunmi was also a Co-Producer of the Nigeria Pavilion at the London Design Biennale 2023, contributing to the global representation of Nigerian creativity, design innovation, and cultural expression on an international platform.

Her work reflects a commitment to creating meaningful environments that merge contemporary design principles with timeless elegance, positioning her as a growing voice within the Nigerian and international design landscape.

Abdul Umar - Principal Architect

Abdul is an Architect and Co-Founder of Siriano, a multidisciplinary architecture and interior design practice focused on creating meaningful, context-driven, and enduring spaces.

With an early interest in design, visualization, and the relationship between people and the built environment, Abdul began his architectural journey by earning a Bachelor of Architecture degree from the American University of Cyprus. During his studies, he developed a strong foundation in architectural design, spatial thinking, and the technical principles that shape contemporary architecture.

Following his academic training, Abdul gained professional experience as an intern with Pro-Tek Mimarlik, a leading architectural practice in Girne, Cyprus, where he was exposed to international design processes and architectural methodologies.

Between 2010 and 2012, he worked as an Architect with Orangeline / PM+CDC, a prominent architecture and development firm in Ikoyi, Lagos. During this period, he contributed to a range of architectural projects, further developing his expertise in design development, project coordination, and the delivery of built environments within the Nigerian context.

Driven by a deeper interest in the transformation of existing spaces and the role of architecture in creating dialogue between the past and the present, Abdul pursued a Master's degree in Architecture at the Manchester School of Architecture. This experience further shaped his design philosophy, particularly his interest in contextualism — an approach that considers history, culture, environment, and existing conditions as key influences in architectural design.

His design thinking has been influenced by the works of renowned architects such as Carlo Scarpa and David Chipperfield, whose approaches demonstrate the importance of materiality, detail, and sensitive intervention within existing contexts.

In 2017, Abdul and Adewunmi co-founded Siriano with a shared vision to deliver innovative architectural and interior design solutions that combine creativity, functionality, and a deep understanding of the spaces people inhabit.

Through Siriano, Abdul continues to explore the intersection of architecture, interior design, and human experience, creating environments that are carefully considered, timeless, and responsive to their surroundings.

LEADERSHIP TEAM

Oluwakorede Oriola - Ass. Lead Interior Designer

Oluwakorede Oriola is a Partner and Director at Siriano Limited, where she provides strategic leadership and creative direction to the firm's design and project implementation teams. Her expertise in interior design, coupled with strong project management capabilities, is pivotal to her ability to deliver projects seamlessly, from ideation to execution.

With over a decade of experience in interior design, she specializes in creating bespoke, contemporary, and highly functional spaces for private and corporate clients across local and international markets.

Throughout her career, Oluwakorede has successfully led and delivered a diverse portfolio of projects, including corporate office transformations, luxury residential interiors, and hospitality environments. Notable projects include the redesign and retrofitting of the Air France Lounge at Murtala Muhammed International Airport (MMIA), the FilmHouse Private Cinema, and numerous other high-profile client spaces.

She holds a degree in English from the University of Lagos, a certificate in Interior Design from Maven School of Interior Design & Decoration, and is an alumna of the Lagos Business School Essential Management Programme. She is also a member of Women in Business and Management (WIMBIZ)
