

H Ä L S I N G

“We dreamed of creating the moments that matter most – gathering under a beautiful sunset and sharing the most precious moments with our loved ones. Cooking, laughing, and enjoying the good things in life under the open sky. An outdoor kitchen that lets you experience luxury and simplicity in harmony. **This is HÄLSING.**”

Top: Stainless steel

ABOUT HÄLSING

HÄLSING was born from the idea of cooking under the open sky. The vision is to create the ultimate outdoor kitchen – without compromise when it comes to design, function or quality.

Founder Fredrik Löfgren, a former designer and product developer at Volvo Cars, has worked in one of the most demanding industries. With his background in the automotive industry and growing up on the Swedish west coast, Fredrik knew that only the highest quality products stand the test of time.

HÄLSING outdoor kitchens are manufactured in Sweden, with carefully selected premium materials. Through a combination of traditional craftsmanship and advanced technology, a product is created that is not just a kitchen, but an experience in itself.

Our modular kitchen system makes it possible to adapt the kitchen to any need and environment. The subtle Scandinavian design, together with the possibility of combining colors and countertops in different materials, makes HÄLSING the architect's best friend. HÄLSING offers a complete collection of grills and appliances that are in-house developed, to ensure that the entire solution always reaches perfection.

“PERFECTION IS OUR
DRIVER. EVERY DAY WE
STRIVE TO CREATE THE
WORLD’S BEST OUTDOOR
KITCHEN”

Fredrik Löfgren
Founder & CEO, HÄLSING

Every detail counts.

We never compromise. The entire outdoor kitchen is made of high-quality stainless steel that can withstand everything it can be exposed to. Nordic winter. The salt water of the sea. Autumn storms.
