

# Shape the future of the pharmaceutical supply chain.

See full event details

## What is the Logistics Forum?

The LSPedia Logistics Forum is an exclusive, working-session event that brings together leaders across the pharmaceutical supply chain to solve real-world DSCSA and logistics challenges. Unlike traditional conferences, this forum is built around collaboration, uniting manufacturers, wholesalers, 3PLs, and healthcare organizations to engage in hands-on discussions that drive meaningful progress.

Through guided sessions and peer-to-peer interaction, attendees work through current pain points, improve data visibility, and develop practical solutions that can be implemented immediately within their organizations.

 August 19-21, 2026

 The Townsend Hotel in Birmingham, MI

 ~50 attendees

## Why attend

- Collaborate directly with industry leaders and trading partners
- Gain real-world solutions to DSCSA and supply chain challenges
- Participate in hands-on working sessions
- Expand your network with key decision-makers across the ecosystem
- Leave with actionable strategies you can implement immediately

## Exhibitor packages

Attending the Logistics Forum delivers measurable value by:

- Strengthening compliance readiness and reducing risk
- Identifying process improvements and operational efficiencies
- Bringing back proven strategies from across the industry
- Enhancing collaboration with key supply chain partners
- Supporting innovation in data, traceability, and logistics operations

## Attendance request

I, \_\_\_\_\_, am requesting approval to attend the LSPedia Logistics Forum.

By attending, I will gain valuable industry insights, collaborate with key partners, and bring back actionable strategies to improve our organization's supply chain operations, compliance readiness, and overall efficiency.
